Webinar
Quality Assurance on the ground: Better Data, Better Outcomes?

Hello there,

National Church Residences revolutionized their QA processes to go beyond just reporting the number of people served, to proactively ensuring that their most vulnerable residents are receiving the exact services they need. Learn from National Church Residences and discover how your quality assurance team can do more than just ensure that funder requirements are met.

Your organization can use real-time dashboard data and outcomes management reports to make sure you're on the right track with the residents you serve. Nina Santarelli, Data Manager at National Church Residences, will show us how adopting a new data management system has allowed her team to provide more impactful information to service coordinators working with seniors in independent living facilities. [Join Nina and myself, Tuesday, January 26th at 3:00 PM EDT for this hour-long webinar.](#)
