Will be in Charleston Jan 25-27, handling estate sales and home care issues... not sure if I'll make it through Cola...

10-4. Thanks. Will you be in SC anytime soon?

Thanks for the input – haven't heard word one about specific programs in these negotiations – it's more been about topline. Labor Dept (wherein that program lies) is likely to get at least somewhat of a bump up, which would bode well for SCSEP. Final deal is probably in the neighborhood of \$100B/year in increased discretionary spending (more in military than non, Dems fighting for something nearing parity between those two.) JDD very likely to oppose final deal because of increased debt/spending.

Subject: Senior Community Service Employment Program

Joshua, I hope that all is well. I know that place is no fun in this kind of weather. I know that budget negotiations are ongoing, and we're wondering about the Senior Community Service Employment Program. We have plans to update the implementation of this program, and we think it can be even more successful here in SC. We hope that it will make it, and we're happy to weigh in if we can be helpful. Thanks
