I'm confused by something on the website...
Can someone answer a question for me regarding camping at Huntington Beach State Park?
I'm looking at a rustic campsite (Rustic Campsite T-2)...it says hike in only, yet there's a vehicle size...
This is directly copied from the site:
Type: Tent Only
Guests: 6
Access: Hike-In Only
Electric: none
Shade: Full
Drive Surface: Unpaved
Drive Slope: Level
Hike-In Distance: 140
Slope: Level
Vehicles: 2
Vehicle Area: 20' x 20'
Tent Pad Area: 14' x 20'

There is a parking area where you may park up to 2 vehicles, but this parking area is not right beside the site. You will have to pack all of your equipment in. Please contact the park directly with more specific questions.

Thank you...I was just confused since it listed a parking spot...thank you for clarification...that's exactly what I expected.

I emailed on Sunday through the contact us on the website and haven't heard nothing back yet.

I used my email collins.sarah.2011@gmail or my farm email collinsfarmsc@gmail.com...
