PUBLIC PENSIONS ROUNDTABLE

The Council of State Governments invites you to attend the Public Pensions Roundtable, 9 a.m. - 3 p.m. on Thursday, Dec. 8 in historic Colonial Williamsburg!

Over the last decade, nearly every state has taken on public pension reform at some level. Today, the financial state of public pensions remains at the forefront of public policy debates across the country. During the **2016 CSG National Conference**, we will offer a high-level look at the fiscal health of public pensions, how states are approaching reforms, how states are balancing public employee benefits with fiscal responsibility, and emerging trends in policy and governance.

This session is only one of the many workshops included in your 2016 CSG National Conference registration. To view the complete agenda or to register for the conference, please visit www.csg.org/2016nationalconference. But act quickly, hotel rooms are selling out fast!
