## South Carolina State Parks

at 13:00:37 on 11/13/2014 UTC

The Great Blue Heron has an incredible growth rate. At birth it is a mere four inches tall and weighs approximately four ounces. In just 60-90 days it will reach its full size of four feet tall and four to six pounds. Stop by to see these majestic birds the at the Animal Forest's shorebird exhibit on your next visit to Charles Towne Landing. [www.southcarolinaparks.com/ctl](http://www.southcarolinaparks.com/ctl)

**Becky Abraham** I would like to add that a visit to Huntington Beach State Park will offer views of this heron and many egrets as well. It is a wonderful park to view and photograph bird life.
