We need to figure out why there is a delay of Richland Cty getting the requests to our office.

Governor Haley,

Chief Tinsley indicated that the requests were going through the system through Richland County to us but none of them have been forwarded. Accordingly, we are working with Richland County to determine the actual requirements and source the requests. We are also convening a planning group to develop possible solutions for the affected hospitals and the overall water problem.

Governor, thanks for your support this far. It has made a significant difference in helping to save lives in our city.

Please see below the request from our Fire Department. We need additional support from FEMA.
