Subject: Fwd: HB 2

I am sorry that I left all the main point of the NC convictions and mine as well about the gender is determined by the birth certificate and that is the overriding factor in the HB2. I agree that mayor roberts is not a good citizen to insight this, nor is the federal govt but what changes can be made to facilitate a reasonable revised bill that doesn't slam the state of NC so hard at this point, ie the bill that allows for those lgbt's to file suit if necessary is on the table right?

Meanwhile, has NC and other states filed suit against the Fed to stop their bias from penalizing us since our own state law and the states of many others is the same, sex equals birth cert. sex.

Sorry for leaving this off.

Subject: HB 2
To: Pat McCrory <Governorsoffice@nc.gov>

Dear Governor,

I am a native North Carolinian and strong conservative in values and politics.

One definition of politics is "to rally the wills" of people. My professor in college suggested this to our freshman class in 1975.

That said, if the civil rights law of 1964 would prohibit discrimination and if HB 2 clearly goes against the 1964 act, how can the legislation not resolve this quickly? It appears NC has no other logical and or legal choice at this time.

Let us reason together is a saying from Biblical times and is very applicable here. I initially did not know about all the HB 2 details and had not read the Act of 1964 but after hearing how you and others want to repeal HB 2 and maybe 3 and approach these issues to align with the Act of 1964 seems to be the best approach at this time.

A bathroom can be a unisex but it must be a one person only accommodation, one may consider.

One online poll from 2011 time frame denotes that only .3% of population are transgenders. that is point 3 is only 3 out of a 1000, right? The more liberal the city is, the higher the % will be, just ask San Fran and cities like Austin Tx as well. Common sense needs to be highly valued at this time within all involved at the State capitol.

This approach is not to save face but to comply with the Federal law for now, right?

Why can't the leaders in the NC assembly use Quality Management tools and processes to accelerate resolutions like this and to communicate more effectively with all citizens. I haven't heard much about the 1964 act until this week. If this is the Federal foundation or law, it requires a process to reverse it, not just a HB. BTW, does NC have the right to not comply with the 1964 Act?

Prayers for resolutions Governor and team,

Mike Davis
