This

If it is governance then it is germane based on the title and the section that includes the language regarding the one subject rule. Such that oversight is germane.

If it is an income tax cut or credit, it is germane if the credit is connected to the tax in the bill. A general income tax credit that does not relate to the tax in the bill is not germane.

This is in the Finance Committee amendment. Doesn't it make a governance amendment automatically germane?

SECTION 13. The General Assembly finds that all the provisions contained in this act relate to one subject as required by Section 17, Article III of the South Carolina Constitution in that each provision relates directly to or in conjunction with other sections to the subject of infrastructure financing and oversight.
