Dear Governor Haley,

I want to thank you for being a great governor. The reason I am writing this letter is I would like you to visit my school because I think it would encourage all of the kids here and to meet you in person would be really cool. We are a class who has studied South Carolina and in our classroom we have a smart board and my teacher Mr. White puts a map of South Carolina without the counties filled in three minutes ten seconds and thirty-nine hundredths of a second if you come and visit we could show you. We have a whole board filled in with cool things about South Carolina like the

state motto, the state butterfly,
the state food, state bird and
more things than that. We have
learned about the H.L. Hunley
and about the Civil War and
the Revolutionary War and it
was all really cool. I bet you
could quiz us and we could get
probably get all of the questions
right. If you have time to come,
I would like that very much.

Sincerely,
Nadia Michelle Stuckey
