Subject: Dangerous Intersection and Road Issues

Dear Sir,

While some issues have been addressed, the most important have not been dealt with. We very much need a traffic light at the intersection of East Darby Rd and Hwy 290 (Locust Hill Rd, Greenville County). It is a dangerous intersection with many accidents as well as impossible wait times to cross during rush hour times. Even if it is a flashing caution light most of the time and during peak times a red light would be great.

Our road should also be considered for repaving as it is too narrow and the runoff from multiple driveways makes mud and gravel run out onto the road creating hazardous driving conditions. While it is not a long road, it is very traveled and often too fast frankly. We also have trees extending into the road which is yet another hazard.

I have contacted the DOT several times and have had no response! Since they have been notified of this issue under state law if there is another accident and especially a death and they have not responded to the need the state will be legally responsible and open to legal lawsuits.

Regards,
Dr. Marko
