

Beautiful Birds & Bottomland Forests...

Curious why certain species call your hardwood habitat home?

Prothonotary Warbler

Hooded Warbler

You are invited to attend this unique educational workshop. Come join your fellow landowners for a free workshop on how to manage your bottomland hardwood forest to benefit songbirds and generate a modest income. This valuable workshop will include a presentation on migratory songbirds and bird-friendly forest management, conservation easements, a field trip, and lunch. This program is a joint venture of the COWASEE Basin Focus Area Partners.

April 14, 2016

Wateree River Heritage Preserve WMA

Goodwill Road, Eastover, SC

GPS Coordinates: 33.943565, -80.655513

From Columbia, take Hwy 378/76 (Garner's Ferry Road) from Columbia heading towards Sumter. Approximately two miles after crossing over Hwy 601, turn left onto Goodwill Road. This is the entrance to the heritage preserve. Proceed past the kiosks and follow the signs to reach our workshop location.
