---

Chaney,

Melissa Boughton of the Post & Courier is doing a story on Congress' Comprehensive Addiction and Recovery Act, which will dedicate resources and grants to states struggling with high volumes of heroin and opioid use. She's asked to speak with someone from DAODAS regarding South Carolina's issues in this area, and we're connecting her with a member of our staff.

We just wanted to keep you "in the loop," but let me know if you have any questions or concerns.
