---

Thanks for talking with me just now.

If you could send me the Governor's statement, that would be great.

And if you happen to see that the the Governor talks on tape to any media outlets about this, we'd love to know about it - we have access to any materials shot by the local ABC affiliate.

And, of course, if there's any chance the Governor comes available next week for a quick interview, we'd love that too.

Thanks!
