Subject: Hello from Imagine Television

Hello and good afternoon. Sheila Jones pointed me in your direction.

My name is Stacy Greenberg, I'm a television producer at Imagine Television, Ron Howard and Brian Grazer's company. We produce and have produced Empire, 24, Arrested Development, Friday Night Lights, Parenthood and more. Most recently we got a series order for a show called SHOTS FIRED, written by Gina Prince Bythewood (writer and director of Love and Basketball, The Secret Life of Bees, Beyond the Lights and more).

Gina and her husband Reggie Bythewood will be opening the writers room the new show this week and were hoping to set a little time on Skype or phone to talk with Gov Haley so they can ask questions all with the intention of getting the story right, making it feel as authentic as possible.

This is what our show is about:

Shots Fired follows a Special Prosecutor and an Investigator from the Justice Department, both African American, who are sent to a polarized town in America to gauge the viability of an indictment in the police shooting of an unarmed man. He is fighting for a post-racial America and she is fighting to expose the lie. The series will reveal the depths of corruption in our judicial and moral systems and explore the question; in our radicalized society, will the truth ever be simply black and white? Highly charged, character-driven, grounded storytelling where we get a view from every seat in the house.

Here's a link to the show announcement: <http://deadline.com/2015/12/shots-fired-police-shooting-event-series-sanaa-lathan-greenlight-fox-1201664817/>

If there are any questions, I'd be happy to speak further with whoever needs. Please let me know if this is something the Governor would agree to do and we can go from there!

Thank you for your time.

Best,
Stacy Greenberg
