

LOVE AND JOY COME TO YOU
FROM HILTON HEAD ISLAND.

The Vaughn's
Gim Gule Games Neel
and Truffle

The year in review

James has a real job! So far 4 cities in 20 months but he says all the cubicles and computer code look the same!
Neal graduated from The Governors School for Science and Mathematics and is now an aspiring engineering student at Clemson

Julie and Jim are still working stiff.
Julie is working more than full time on 4 different contracts
Jim is successfully (we think) keeping the doors open at Vaughn Business Systems
Jim's still sailing and doing race management
Julie is rising to culinary heights in her new kitchen

Travels this year were short but fun
Our family went to Charleston for the first McDavid wedding
and then back again for the gathering of the Alexander clan at Thanksgiving
Julie and Neal went to NYC to soak in some culture with Julie's sister Lynn and her daughter Ashleigh who is now working for the Met
In 2013 we took a great trip to the Outer Banks to connect with Julie's family roots
Visits from distant friends and family included the Clingers and the Sedlacks
We hope others of you will come soon!
Our thoughts and best wishes are with all our friends and family this
Holiday season
