Hello,

Wright Gazaway here at WTOC in Savannah. I am doing a piece on the construction and widening of 17 near the Talmadge Bridge. I would like to speak with the governor if possible about the project, its importance, and its priority for him. I am reaching out to local representatives but would like the opportunity to ask the governor a few questions about it. I am free any Monday, Thursday or Friday and would need about an hour for the setup and interview together. It could always not take that long.

Thanks so much for any assistance. If you don't mind confirming receipt of this email.

Wright Gazaway
