Subject: RE: Septic Permits

Jonathan,

Can you follow up with Representative Moss.

Thanks,

Ted

Seems like this is about to get even worse. Another employee is retiring this week and not being replaced. The guys in the field don't have time to complete the work.

We are in the two month time range on getting permits now...

I don't know where we go from here. Haley needs to get involved. I am hearing they are wanting to privatize this. Either way, what is happening now isn't working. Construction is slowing because of this.
