This has been a non-event for Co-op's. Co-op's cancelled their 8:30 conference call. No SC crews have been requested for NC or VA. SC Co-op's have not experienced any outages at this time.

Good news. The weather across duke's service area consists mainly of light freezing drizzle and is not causing any issues, but some roads/bridges may be a little slippery. The drizzle should move out mid-morning in most areas.
