Subject: Procurement Slides

Attachments: (2013-02-12) Procurement and the Department of Administration (v01).pdf

This is the new slidedeck on Procurement for DoA. I stripped out the references that were specific to last year's amendments and tinkered with a couple other minor points.

It's a bit detailed for us to email to folks and have any expectation that they'll read it on their own and get it...but it's a good document for me to talk off of in individual meetings with members and to leave behind with them.
