Dear Governor Haley

My name is Jesse Clark and I love your State of South Carolina now I have never been there before but one thing I know is that since South Carolina is in the east I'm sure that all of you have a good nice morning of sunshine since the sun starts in the east and ends in the west.

I love how you are right next to Georgia. Well I don't know much about your State. And one thing I know to about your State is you have a very wonderful pretty State!
