Hi Ms. Veldran,

Attached is a letter of support from Honda of South Carolina Mfg. for Governor Haley in support of SB 1015, a bill that would prohibit the proliferation of counterfeit airbags throughout the state.

As our letter explains, counterfeit airbags are a growing problem nationwide. Enacting legislation to combat this problem is a top priority for Honda, and we greatly appreciate the Governor's attention to this important consumer safety legislation.

If you have any questions, please don't hesitate to reach out. My direct line is (202) 661-4413.

Thanks,
