Lt. Governor Bryant, Please help ensure that Defense Secretary James Mattis will implement the commander-in-chief's policy barring the gender-confused from serving in the military. Please defuse the expected amendment to be proposed by Gillibrand and Collins to the National Defense Authorization Act. The military should not be a petri dish for social experimentation. As it was very aptly stated by our President, "Our military must be focused on decisive and overwhelming victory and cannot be burdened with the tremendous medical costs and disruption that transgenders in the military would entail."
