## South Carolina State Parks

at 16:15:00 on 8/02/2016 UTC · 🌐

Showa Denko Carbon is a good neighbor of Givhans Ferry State Park in Dorchester County. Rick Robertson, our park manager, is holding up the new defibrillator SDC donated to the park last month. Thanks to President and CEO Carl Kolts and his staff for supporting the project. Givhans is several miles from first responders and the AED can help save the life of a heart attack victim at the park. SDC's donation is part of a bigger effort to put an AED at every state park.
