Subject: FYI re IG processes

---

FYI-the SIG's scope letter to SCSU in February set forth three issues; two were audit related and one an alleged misconduct. The SIG's process for misconduct investigations is as follows:

- SIG does not publicly comment on misconduct cases due to personnel nature of investigations.
- SIG investigates and presents a report with facts. The SIG does not make conclusions. That is the role of the adjudicator.
- Upon full adjudication, the SIG closes its case and then records subject foia with the agency involved having the complete record of investigation and adjudication.
- the SIG will, at a minimum, provide the report to SCSU Chairman Small for adjudication using SCSU code of conduct. If appropriate, the SIG may provide a copy to the Ethics Commission if a potential ethics violation identified.

Thanks
