CON REVIEW PANEL GOALS.docx

All,

The list below is a good start to begin fleshing out to add to S. 568. However, I want to make sure we put all of the options in front of the Governor. The attached PDF documents that Catherine sent me yesterday includes many other CON recommendations that didn't make it to the bill or are regulatory/process changes. Can DHEC prepare an updated document showing (1) what is currently in S. 568; (2) what has DHEC already or will plan to do via regulatory changes; and (3) what more needs to be done to strengthen S. 568 (as mentioned below). Tony – please provide your proposals to the group as well to add to the list.

Again, I'd like to get a preliminary proposal by Thursday COB.

Thanks!

Swati

I have not opened this because I am driving, but the attachment should give you the answer to what is regulatory and what is statutory.

Jonathan,

Attached are the two documents you referenced.

The spreadsheet, dated June 1, 2012, has a list (in the first column, on the left of the page) of all the issues/concerns that the CON review panel came up with in the beginning to review/discuss during their various meetings; it also has notes about whether statutory or regulatory changes would be required and comments from staff, which were added throughout the review panel process. [The last column on the right references the CON review panel goals that correspond to the issue/concern; I've also attached a word document with a list of the 4 goals that the review committee established for itself, for cross-reference.]

The other document is dated September 12, 2012, and has the panel's final recommendations.

Ashley,

There were a couple of docs that came out of the CON panel. One was the recommendations and the other was a spreadsheet. Do you have a copy of the spreadsheet?
