Subject: My Thoughts, Opinions, and Recommendations in Social and Government Affairs

My name is Randy J. Blankenship. I am the student philosopher that explores the subject of freedom and natural rights by their design, function, and purpose in life. I search for truth in life's natural state of being and by the challenges in life. I evaluate subjects of and in: theology, the sciences, law and justice, economics, the heart and soul of mankind and other subjects reflecting on the proper and just way of life. From this pursuit for greater knowledge and understanding, meaningful results have been unveiled and disclosed.

The letter is directed for your attention and contains many messages, issues and recommendations that I have placed in the Topics. I consider the contents of this letter extremely important, and from one who sees the world in a different view from others. My viewpoints are real and true and kept simple. I encourage dissemination of this letter to other elected Republicans, state and federal, and to your fellow comrades.

I do not know if I will write anything of this sort in the future, so, that is why I have packed it with so much information. I feel it is time for me to unload all of this in one big package and not leave anything of importance unsaid; although, I am sure to forget something.

The main reason is because I feel there is still too many who do not know what needs to be properly done or what actions are correct or appropriate. And, in some cases, I would recommend no action. It is not new ideas I present but a clear focus on restoration to what is known to be worthy of our uniquely established nation. Too many try to come up with new inventive ways to correct problems rather than removing the problem and restore to original intent. Few laws are better than many or cumbersome ones. Keep it simple and minimize the drama.

The one main fundamental element that is required to achieve any worthy endeavor in life is character. Character that leads a person or a nation on an orderly and stable course for improvement and betterment of self or the group is essential. Whether it is to understand or to move forward on an issue properly, character, that is, good character, is necessary.

As you read this complete letter, and its topics, you will see repeating essentials necessary for our nation. Character is the foremost important element, and it requires education to expose reality and truth, all truths. Also, the mindset for restoration to have order and stability is the focus for placing our country in the correct direction. Finally, cooperation in this endeavor requires courage to be successful, and that includes non-cooperation with destructive ideas. Do not aid ill-fated ideas, but end them and move only on constructive ideas that restore our nation to its foundational principles and values—including, federalism and self-governing. No action is better than one more lousy idea in the wrong direction.

My plan was to compile as much as possible into this letter, explain it, and let you take it from there. I can only hope that a lot of my words will pay off and we can all start pulling in a more productive direction and manner to end this malicious slide to federal tyranny and social chaos.

Please take the time to carefully read the topics. There is nothing in this letter that needs to be kept private from any recipient or associates. If you need to contact me, direct your reply to the address on the envelope.

Submitted sincerely with respect,

Randy J. Blankenship,

### Our Country's Current Status

To explain our country's current status, it is best that I just refer to earlier writings. The following is a paragraph from a letter dated September, 20, 2012:

As you may notice, we are living in a crazy, illogical time period. Right is wrong, good is bad, proper is not accepted, discernment is losing its place to guide mankind, justice is questioned, moral and ethical standards are whatever a person decides for themselves, rights are not understood, Constitution considered outdated, authority is overridden, diligence and self-discipline are weakening, and the list goes on. Many people are saying that everything is upside down, and, when you look at it closely, they are correct. Almost everything outside our personal life makes no sense. "What is happening to our country" they ask? Yet, the real problem is with the voting public who is uninformed or ill-informed, for this group will cast ballots not fully understanding the person's ideology or character or whether they are able to properly carry out the duties and responsibilities of the office.

Will it ever change? Or, will it get worse? I do not know, but I do have a plan that I mention later in this letter.

How did we get to this point? The first major hit on our representative republic started in 1913 with the adoption of the 16<sup>th</sup> and 17<sup>th</sup> Amendments. These two Amendments hit our federalism structure and stripped the most important elements of state's power, and, forever, began the empowerment of the federal government. From an April, 8, 2013 letter I give you this:

Evidence of One-Hundred Years.

First, lock it away in your brain, and do not forget this very important fact. The Left/Progressives has been assaulting our Republic and not one major issue has been repealed by any generation since. That is correct. Some may say that with every few generations we bounce back. I say, oh yeah!? Where is the evidence? I am talking about protection and preservation of personal freedom and individual rights. We are on a One-Way trip to somewhere. The country will never come back completely, but linger in some confused state oscillating for normalcy and justice.

Where are we heading? From an April, 8, 2013 letter I give you this:

What is the Ultimate Goal of the Left?

This is a question many ask from time to time, but they always think in the present and near future time frame. The ultimate goal of the Left is to rewrite the Constitution of the United States. What happens once you destroy everything? That is correct, the basis for everything, the Constitution, will be found out of touch and not useful in their new form of society. Therefore, the Constitution must be rewritten to reflect the new thinking of an immoral and uncivil society.

Now if any intelligent person contemplates this for a moment, they will recognize that our country will never assemble a group of thinkers like the Founders again. Therefore, we are left with the collective body of elected officials from the mental categories of brilliant to ignorant to plain lost. The truth being, our Republic, by values and principles of a civilized, moral, and God-fear people, will be a thing of the past never to assemble for the people again.

## Read. Share. Discuss.

What shall we do? What preparations and actions do we take? So, if all is getting worse, and there are many reasons for this trend downward from a civil society, what should we look for? What do we prepare for? The future is not for man to know unless some window is opened. The window is open. Do you not see? Here is an excerpt to the Governors from a previous letter, dated, November 19, 2012:

Recommend all civil disturbance contingency plans be reviewed and given trial runs for providing appropriate action. This should constitute review of any form of unrest and include all agencies from state National Guard and command and control to local EMS. Be prepared to protect government facilities and personnel, strategic targets, businesses and executives, including their residence and families, institutions, and local communities. There is no limit to the targets (property and people) being listed by Leftist groups and supporters.

I have sent similar messages and recommendations to elected Republican officials in Washington, DC, but I do not see them listening very well. As most of us know, we who love this country and want to restore her, not change her, are outnumbered by RINOs and the weak and timid. With that said, I see no reason to add excerpts directed to them.

One last thing I want to add to the contingency plans being considered by the governors and their applicable departments of each state, is the reminder to never turn on the patriots within your state boundaries. When you make your plans and think you have listed all assets of the state, do not forget the patriots who live throughout your state. **DO NOT TURN ON A PATRIOT.** Embrace the patriot and use all of the valuable talents and knowledge they possess. The patriot works and lives in the communities. They have specific talents and knowledge that are extremely valuable to the success of your plans. In addition, they are the eyes and ears of the streets and open lands. Properly deployed, the patriot can do things no other group of government agencies can accomplish.

But lastly, the citizen has the Second Amendment, the last right to protect all rights, to provide security for themselves, their property, and the security of the state. You must think beyond the limits that the Left would want to curtail you and keep you and the law abiding citizens at bay. You must be willing and trusting in the citizen patriot of your state for the ultimate and final resolve for liberty and freedom. **DO NOT TURN ON A PATRIOT.**

There are those who will easily commit evil and those who lack discernment will eagerly join the ideas of evil. They are here now and will multiply as time goes by. Are you prepared? What will you do? Regardless, needed or not, do not turn on a patriot. Embrace and be appreciative of the patriot; they are the backbone and final protector of liberty.

#### Who Is Barack Obama?

Most Americans do not know who Barack Obama is; or better stated, what is in his heart and soul. I am not concerned with appearance or labels but of what drives him to do what he does. What is in his heart and soul that drives him to see the world and life as he does and have particular ideas for it.

See, Barack Obama is not a Democrat any more than Nancy Pelosi is a Catholic or John McCain is a Reaganite. A person can call themselves anything they want but the truth lies in their actions. To know what is in the head and heart of Barack Obama, one only needs to look back at his previous political affiliation and his faith and social connections. Barack Obama is not a true Democrat; he uses the Democrat Party to fulfill parts of his ideology. Since he is interested in harming the United States' relationship with our allies, weakening our national and internal security, crippling our economy, punishing all businesses large and small, sabotaging our social compact of

civility and just laws, and tearing away our foundational faith in the Lord God, then his most likely political association would be the Democrat Party. That is why many of his actions are disturbing even to Democrats or the Leftist leaning media.

To accomplish his plan for transforming America, he sets the stage with certain acts in overseeing government departments and agencies and leaves the rest to his Leftist groups and organizations to carry out his desired actions against America. They do not even know they are acting in his behalf, they think it is their calling. It is a very clever method of operation, set the stage and let Leftist and the out-of-touch produce antics on America. Every Leftist cause has been turned out on to the civilized communities of America.

You know a lot about Barack Obama's past associations in faith and society, but do you know what his previous political affiliation was? His previous political affiliation tells more about his heart and soul than any other knowledge you have on him. Yeah, you can read his books and learn about his childhood and the mental state of his father, but clarity of his mindset will frighten you to the bone. Do you know what and who he has a grudge with? Do you know who his enemies are? Do you know what he would like to do if he was a dictator and unchallenged by anyone? Really? You think you know? Sorry, to expose Barack Obama on this or any page would produce outrageous cries of similar minds across this country. In other words, you and the country cannot handle such truth, or the problems that would erupt in the streets. In a cautious note, be careful and observant over the next two years, and actually, beyond.

The Future of OFA. Excerpt from letter dated April 8, 2013:  
Organizing for America (OFA) has changed to Organizing for Action (OFA). What is the goal of his new organization? Let us look at who we have as President, a community organizer. After President Obama's second term, and he leaves Washington DC, what will a former community organizer do? He will go back to being a community organizer, but not the same community. No. President Obama, I predict, will be a national organizer. He will be off one stage and place himself on another for the same purpose. He is determined to commit and see through all of his plans even, and especially, after his Presidency. He will try to run America from the sidelines. He will use all of his personal influence, and the Leftist collaborating media, to overshadow any future (Republican or Democrat) President's position on any issue. In a way, he will at least try to influence all decisions in Washington DC and across the globe.

You think that President Obama, if he attempts to run Washington DC from the sidelines, that he won't be successful? Let me ask you a straight forward question, has the Republicans been successful at standing up to him to this date? That is what I thought you said. So, how do we handle such a threat and correct eight years of Barack Obama?

The first stage of my Second Reconstructive Period is to clearly and completely identify and expose the real Barack Obama. The outcome of this thoroughly explosive finding will be to lay out the social and legal strategies that will initiate the great demise of Democrat ideology, and roll back the last eight years. I do not overstate my statement, but inform you of would happen and how detrimental the outcome of straight forward action will be. Do not let this stage of action or anyone intimidate you. The restoration of the country is more important than any person. This is the only and best way to begin restoration of our country—bringing reality and truth to a finale.

Am I dreaming? It is only a dream if it ends here, but I am looking for action and restoration. I will leave my views and ideas on paper, but I cannot disclose every part. Some know the truth I speak, and they will forward it in their own words. I am not sending anything new to many of the addressees; they already know the words I write are true. Truth is in my writings.

Contact me and I will let you know how to accomplish this with little civil disturbance. Yes, there is a peaceful method and process by turning a potential nightmare around to head shaking and bewilderment. What follows is a quiet acceptance and return to some resemblance of normalcy.

Time to have a little fun. Think I do not know Barack Obama? Well, let's see if you know him? Let me give you a real challenge. The following survey is for you to complete:

### Rank President Barack Obama's As a World Leader

I feel it would be a cinch for President Barack Obama to be given the title of worst President in US history. So, why don't we look at his standing against all leaders of any nation during any time in history? A series of questions must be answered weighing the total findings of each against each other leader of the world (pick just a few nasty ones), past and present. The questions to be asked are not limited by the following set:

- A. Same citizenship as those he/she governs or rules over?
- B. Personal character, honorable and trustworthy?
- C. Personal presence and quality of speech and ability to rally the people.
- D. Quality of language and speech.
- E. Understands the foundational principles and values of the nation's residents?
- F. Good or bad, does leader unify or divide his/her nation?
- G. Is leadership transparent or acts in the shadows?
- H. A true supportive and reliable friend of its nation's allies?
- I. Knows and responds decisively to the nation's enemies?
- J. Protects the nation's border?
- K. Faithful and supportive of its military and security forces?
- L. Understands and supports true economic measures and policies?
- M. Supports and defends the industrious nature of the people?
- N. Faithful to the nation's laws?
- O. Supports and defends justice?
- P. Supports the citizen or the alien?
- Q. Defends lawlessness and investigates law abiding citizens and law enforcement agencies.
- R. Uses government to investigate, attack, or abuse the people and their businesses?
- S. True to the spiritual belief of the country?
- T. Understands and lifts up exposure to reality and the search for truth?
- U. Favors government laws, rules and regulations or has trust in the freedom and liberty of the people to conduct natural and personal legal, moral and ethical activity?
- V. Type of governing authority, i.e. dictatorship, monarchy, theocracy, democracy, parliamentary, representative republic, etc.
- W. Placed in power by: conquest, birth, appointment, or election.

Once you have completed this assignment, I think you will find a very astonishing fact, that is, President Obama was elected and reelected. You will also find that both the notorious and ill-equipped leaders of time fair better in many categories than does Barack Obama.

If you accept this challenge, I wish you well on this assignment and look forward to seeing the results of your findings. Please, do not be intimidated in sharing the results of your findings that are supported by facts and true evidence.

### Topic (3)

#### Eternal Truth of Life—Personal Responsibility

The ultimate truth is that man will always be answerable to the Creator. Regardless of what man tries to accomplish by Earth, God's Law will always prevail today and forever. Although, the Son judges the individual soul of each, it is the Father, The Almighty God, who is the One and Only Authority over Heaven and Earth, and all nations and their leaders. All, eventually, will bow to the Lord.

Dissemination Encouraged

## Read. Share. Discuss.

The idea that man can create and manage a just governing system on Earth, is, and always will be, futile. All of mankind would have to be equal to the angels of God to even get close to a proper and just society, and every generation would have to produce angels of God. The truth is, man's laws will always, however long it takes, grow to be master of him rather than a just and honest servant. Although man may initially see his chosen representatives as servants, they will eventually find them as rulers over the masses.

The ultimate truth of life rest in the Words and Laws of the Lord, the God Almighty, Creator of Heaven and Earth, the God of Abraham (name given him by the Lord), Isaac, and Jacob (Israel, the name given him by the Lord). There is no other God.

To establish the spiritual fundamental, let me say there are two forces and one power in the world. The forces are the Lord God (often transmitted to man through angels and the Holy Spirit) and Satan; however, the Lord God is the only one with power. The power is so, because of the power to create. Forces are of influence and persuasion.

Adam was originally given a place to live, the Garden of Eden, and authority over life on Earth. With his poor judgment and disobedience to the Lord, he accepted Satan's deceptive means; and for that, he was removed from the Garden and made to work (toil) for his own keep (Gen 3:17-19). In fact, all men are required to work for their needs. There is no social handout from one to the other, but there is a responsibility to our family and an obligation to those around us known to be in need. I specify 'known' because we are not to walk with blinders on and, thereby, be deceived by man.

To further explain this, we are not our brother's keeper (Gen 4:9). Cain was correct in his reply to the Lord; his fault was he tried to deceive the Lord. He did not answer the Lord's question. Cain was running from the responsibility of his actions.

This first topic helps explain man's duty and function on Earth. The first order is to acknowledge, obey and worship the Lord. By following his commands and also through faithful worship to Him, man will live a good life. This is man's design and purpose.

The second topic from above is that no man is assigned responsibility to another. Our responsibility, other than obedience to the Lord, is the care of our self, our family and our personal property and responsibilities, such as home and animals in one's care. Each person, at least of age of understanding, is personally responsible to one's character and conduct, his family and property. There is NO collective responsibility as a society. Each is answerable to the Lord and to our personal responsibilities. Therefore, each will be judged on their faithfulness to the Lord. Man does not serve man but the Lord. In case you missed it, Man does not serve man; each is responsible for their own care and actions in life.

For man cannot be responsible to another for only one aspect of life but not another. For if man was to be responsible for what a man cannot do, then he would be responsible for what he can. And as such, if man can be responsible for his good, then he would also be responsible for his bad behavior and actions. What I am saying is, if man was responsible for one thing in another's life, then what would stop him from being responsible for all of him? Therefore, no one is responsible for another, other than his own responsibilities. We should, however, help those who actually need our help, but limit that to what gets them back to taking care of one's self.

#### God's Answer to Samuel

The Lord cautioned man of his desire to have a man selected from within to rule over them. 1 Sam 8:4-21 (in Samuel's old age) gives the story of a people who did not trust the sons of Samuel to guide them and they asked for a King to rule over them like other nations. They did not remember that Samuel's leading direction and guidance was by the Lord's direction, not Samuel's. They were

Dissemination Encouraged

## Read. Share. Discuss.

unfaithful to the Lord and did not realize that listening to Samuel was to follow the Lord. They were asking for a man from within their own people to be appointed over them instead of listening and obeying the Lord. This is what the Lord told Samuel would happen:

1 Sam 8:11-18

11 He said, "This is what the king who will reign over you will do: He will take your sons and make them serve with his chariots and horses, and they will run in front of his chariots. 12 Some he will assign to be commanders of thousands and commanders of fifties, and others to plow his ground and reap his harvest, and still others to make weapons of war and equipment for his chariots. 13 He will take your daughters to be perfumers and cooks and bakers. 14 He will take the best of your fields and vineyards and olive groves and give them to his attendants. 15 He will take a tenth of your grain and of your vintage and give it to his officials and attendants. 16 Your menservants and maidservants and the best of your cattle and donkeys he will take for his own use. 17 He will take a tenth of your flocks, and you yourselves will become his slaves. 18 When that day comes, you will cry out for relief from the king you have chosen, and the Lord will not answer you in that day." NIV

Notice: the Lord foretells how man will be servants to the one they chose to be their king, and the authoritarian form of the king's actions. Man, whether king or common, will always serve his personal desires and passions. The proper guidance is to the Supreme Authority.

The point to make here is the single most important and fundamental guidance/law for man to obtain a long and fruitful life. Eight of the Ten Commandments are written as to what man shall not do, while the other two tells man what he is to do. Just to ensure it is written here, let me list the Ten Commandments for you here:

Ex 20:1-17 <sup>1</sup>And God spoke all these words:

<sup>2</sup> "I am the LORD your God, who brought you out of Egypt, out of the land of slavery. <sup>3</sup>

"You shall have no other gods before<sup>a</sup> me.

<sup>4</sup> "You shall not make for yourself an idol in the form of anything in heaven above or on the earth beneath or in the waters below. <sup>5</sup> You shall not bow down to them or worship them; for I, the LORD your God, am a jealous God, punishing the children for the sin of the fathers to the third and fourth generation of those who hate me, <sup>6</sup> but showing love to a thousand [generations] of those who love me and keep my commandments.

<sup>7</sup> "You shall not misuse the name of the LORD your God, for the LORD will not hold anyone guiltless who misuses his name.

<sup>8</sup> "Remember the Sabbath day by keeping it holy. <sup>9</sup> Six days you shall labor and do all your work, <sup>10</sup> but the seventh day is a Sabbath to the LORD your God. On it you shall not do any work, neither you, nor your son or daughter, nor your manservant or maidservant, nor your animals, nor the alien within your gates. <sup>11</sup> For in six days the LORD made the heavens and the earth, the sea, and all that is in them, but he rested on the seventh day. Therefore the LORD blessed the Sabbath day and made it holy.

<sup>12</sup> "Honor your father and your mother, so that you may live long in the land the LORD your God is giving you.

<sup>13</sup> "You shall not murder. (Do not shed innocent blood. Do not take innocent life.)

## Read. Share. Discuss.

14 "You shall not commit adultery.

15 "You shall not steal.

16 "You shall not give false testimony against your neighbor.

17 "You shall not covet your neighbor's house. You shall not covet your neighbor's wife, or his manservant or maidservant, his ox or donkey, or anything that belongs to your neighbor." NIV

Exodus 20: 8-11 is the Fourth Commandment establishing a time for rest with reflection and prayer to the Lord.

Exodus 20:12 is the Fifth Commandment and the first on the list pertaining to personal conduct and state of character. The Fifth Commandment is so broad in its meaning and purpose that it could not only take the place of the last five commandments but also all matter pertaining to a person's thoughts, words and actions of moral and ethical consideration in the realm of spiritual, mental, and physical activity. In fact, once the Fifth Commandment is properly exercised daily, it accomplishes all of the Lord's Commandments.

What is noted about the Fifth Commandment must now be given some discussion to better understand the broader meaning and purpose. To honor your father means to honor both your Earthly father and your Heavenly father, the Lord God. Since your father cannot bestow honor on himself a third party is the one to do the honoring. When you honor your Heavenly father, the Heavenly hosts honor Him for your just and righteous conduct and character. When you honor your Earthly father those who recognize your acts (family members, his friends and neighbors) bestow honor on him. To honor another, your conduct and character must bear honor on that person. Honor is given by a third party on the reflection of those who perform.

But this goes even further than honor on just your Earthly father and Earthly mother but your ancestors and your family name.

#### The Potential Fate of the United States of America

Let's compare God's chosen people of Israel to the people of other nations.

If God has chosen the Israeli's as His chosen people, then what blessings can be bestowed on other nations equal to Israel? But, America is not Israel. God judges the nations and their leaders for their actions. If God is stern with the Israelis then what actions would the Creator take toward any other nation that is or becomes disobedient and disrespectful?

2 Kings 21 reveals the actions of King Manasseh against the Lord. He did evil in the eyes of the Lord like no other king of Judah and it was his actions that determined their fate to be driven into exile to Babylon.

2 King 22-23 reveals the actions of King Josiah. He did what was right in the eyes of the Lord and walked in all the ways of his father David, King David. Although he was favored by the Lord, the fate of Judah was irreversible by the actions of his father Manasseh.

Now, if a people chosen by the Lord would receive exile for the actions of their king, then what would happen to a nation, not chosen by the Lord, that has displayed such contempt and rejection of the Lord. Do you or any American still believe America is blessed by the Lord and that His hand will still be there to guide us in prosperity and fruitfulness? A disobedient nation that rejects the Lord shall receive what it has forged on itself.

I do believe that one purpose the Lord had for our nation has already been fulfilled. That major purpose is most likely associated with the restoration and protection of Israel. Hopefully, the

## Read. Share. Discuss.

Lord has more planned for our nation in the future. But, in order for our nation to do good service for the Lord, it will have to resume its righteous place with Him. Our current status is not good.

I believe the Lord has turned His face away for America many decades ago. Now, there are Americans who are saved by the Son, Jesus Christ, but their fate is different from the nation. Our nation is heading to destruction and whether it is ever resumed in God's favor in the future is a question that only the Lord can answer. Man has no say in the matter.

As for me, I will seek the embrace of the Lord's loving arms. I will not dance with Satan, but reject his deceptive dance steps. Oh, I will do everything possible for the true preservation of my country while I am in this body on Earth, but my soul will be saved by my belief in Jesus and my love for the Son and my Heavenly father. What is your response?

### Topic (6)

#### Laws of Nature

Creation has a set of laws in its design; in other words, nature is governed to work according to its design. Life must work according to the Creator's design and laws or suffer the consequences. Any actions taken in contrary to nature's design and the laws governing it will bear great consequences upon its offenders, and all those around or associated with the action, whether guilty or innocent.

All life on Earth, except mankind, function naturally according to its design by spiritual oversight. The Creator, Lord God, watches over and provides for the needs of all His creatures in a rightful way to each kind. Mankind may not agree to the working order of life, but it is a natural process that is designed to extend forever. To reject and pervert the design of life is to dishonor the Creator.

Mankind, however, has the mental function and property of understanding life and choosing options of his selection, but should be cautious of what he conducts in life. When mankind chooses to act out of greed, sexual perversion, selfishness, coyness, dishonest gains, personal power, self-gratification, self-glory, and the other evils, the consequences will be found in the backlash of the results produced. Heaven and Hell are eternal places and justice resides in both.

History has its cataloged stories of people, communities, and nations rising up from their dirty deeds to the deadly downfalls that become the fruit of their actions. Power grabs to fallen nations. Perversion of passion and sex result in physical and emotional deterioration or death. Mismanaged and power seekers blossom in economic struggle only to find themselves in depression and overwhelming debt dying in disgrace and distress.

In short, the Laws of Nature are what they are, and they are incorporated in God's design of all things. The power and forces of Earth and the Universe are steady. Gravity, magnetic, electrical, and other forces surround us. Life is what it is and it works according to design 24/7 without any action by man. The Laws of Nature are at work in everything, time, space, physical, mental, spiritual, and by passion and desire, and there is an effect from every cause. Just as the action of Cause and Effect are true, so is the origin of its beginning.

God's Law helps us work with the Laws of Nature and not against it. When man improves on his character he leans toward both God and His will.

#### Flaws in America's Foundational Documents

Although the Constitution is a finely written document, it is not perfect. I will mention what I believe to be errors in its construction, and because of those errors, man has, over time, corrupted it and perverted the intent of its framers. How can the people corrupt and pervert the intent? Is it something in, or lacking in, the documents that have allowed this destructive transition to occur?

#### Dissemination Encouraged

## Read. Share. Discuss.

The first flaw is a most important element missing from both the Declaration of Independence and the Constitution, and that is, the direct reference to the Lord God. The documents should clearly state that all rights, authority, and functions of life originate from the Lord God, and His authority as the Supreme Judge over all life is eternal. Since the Lord God is not specifically mentioned, the people may assume any god of any faith is the same god, or no God exist having that authority. A seriously flawed idea that man is the authority of life and in charge and director of what guidance he shall follow.

The second flaw is the absence of a clear understanding of inalienable rights. Without a clear understanding of inalienable rights, or just simply rights, man can spread out his ideas to any such action or thing. As is shown today, man has attached the word right to living forms and to any action they wish to have legal protection for. Clearly, a simple, yet, precise understanding of the nature of a right is necessary to prevent misinterpretation.

Freedom is another such word that gets twisted out of sync with reality. Freedom has a specific meaning and there are just limits. Now that we are in this spiral of passion rule, man will always be at the mercy of his neighbor's will. This man formed government leaves us with following two governing powers, one by the Lord and the other by man. Noting a significant flaw in freedom is that it allows both good and evil to flourish. Both good and evil are allowed and protected. When freedom is not clearly distinguished, both good and evil are permitted. The foundational law of life, God's Law, must be held above all of man's desires, and the Lord God must be clearly identified to separate Him from all false gods of the world.

But, why does man exchange the intent of the documents to their own passions? I will try to simplify this question by saying that the phrase "unalienable rights" is not fully and properly understood. Now, most of you receiving of this letter will automatically disclaim yourself as being in that group, but, the truth is, you most likely are. The idea described in that sentence is not actually self-evident. As one who has made a long study of this term, I personally believe I have a fairly good understanding of it, and it is not so self-evident.

Unalienable or inalienable, which ever spelling you choose, is well explained in the dictionary as something that is incapable of being alienated, surrendered, or transferred. Since this is related to the rights of man, then it is within man and not external to his being. Therefore, man does not have an inexcusable right to anything external to himself, his family or his property. This separates each man from another were consent is not granted or the Lord has not directed us for cleansing our soul.

The word right is, in essence, the power to exercise a function, thereby, a function of and within man himself. Whether it is human rights, civil rights, legal rights, or by any other name, it still comes from the same source and all rights and limitations originate from the same—The Lord God. I have determined two types of rights, gifted and granted. For brevity, I will list gifted rights and their functions here:

- A. The function of life and all functions within the body that give it life is the right of life—the Lord's gift to mankind.
- B. The function of all bodily movements for performance in our life.
- C. The five senses: sight, hearing, smell, touch, and taste.
- D. Our mental faculties and all connections to the body parts.
- E. The function of our soul, the spiritual connection with our Creator, the Lord God (not Allah).
- F. The function of self-protection from all spiritual and earthly powers against the person, his responsibility, and property.

There are limits and responsibilities to the exercising of rights, and there is no right to conduct unjust, immoral or unethical activities, including sexual perversions. Although mankind has rights of function, exercising them is when limits and responsibilities are joined.

Dissemination Encouraged

## Read. Share. Discuss.

The granted rights are all rights granted and limited by an authority for a person or group to perform or be in charge of. An employee or member of a group is granted specific rights to perform and be in charge of. During the time these granted rights are being performed, some, actually many, personal gifted rights are suspended. A person resumes their full gifted rights after time of employment or business.

An example would be that a teacher is granted rights over the class and its students during time of class. These granted rights seldom go beyond time in classroom or with students, and it would be unnatural to assume responsibility for the students outside of the classroom if not on a specific assignment. A teacher, school nurse, or school administrator, must maintain discipline on campus, but is never to assume any parental authority. Discipline connected to activities on campus is the function of school officials, with notification to parents as soon as possible. All issues not connected to school function are left to the parents. Communication with distinction of authority and responsibility are essential.

Final and important word on rights. Rights come from the Creator and are established in the body of each creature. Man has his inalienable rights and they are all within the body. No additional rights exist or can be created by man or an Earthly power or law. God's law, which is also noted in the laws of nature, set the parameters of the lawful use of our rights. For justice (God's justice), morality and ethics have limits that govern them. Hence, no such thing as right to take innocent life (abortion), right to distribute another's property (theft by legislation), right of sexual perversion (law to consent and protect homosexual union/marriage or the act), child's rights (governed and limited by parental authority), women's rights (rights are equal in all sexes, however, husband is authority in the family and wife is his chief counsel. They are bound together by parental authority), or any other right made up by man. Rights, responsibility and authorities are set by God. Do not test Him!!

### Topic (8)

#### Circumstances Facing Our Country Today

For over a century, the Left has been effective in attacking every corner of America's foundation and structure. In fact, there has always been a divide in social thought and perspective of all kinds. However, the Left, just like in other countries, continues to dislodge the social and moral fibers of the people and their communities. In their own delusional thought process, they have deemed everything that has brought this country to its historical strength and justice to be flawed and unjust. Bring up any topic and you will see it perverted and corrupted by personal passions of the delusional. The central theme behind their delusion is the idea that man can and is in control of life and, therefore, can create a utopian society. This is delusional, a total disconnect from reality and truth. There is one Heaven and it is not Earth, nor can Earth be made by man to even resemble Heaven.

At this time, our founder's dream of federalism and self-governing are taking a beating and being smothered. Just as inalienable rights are not fully and properly understood neither are the established principles and values of our country. The ignorant and ill-educated public cannot and will not be able to unite for a corrected course of recovery. Our founders admitted that a properly educated public was deemed vital to our nation's continued strength and prosperity, and I must agree "properly" and "educated" are two important words of this vital necessity.

Those who are elected or appointed to positions for the purpose and responsibility of protecting and preserving freedom must wake up and take a stand to conduct their functions accordingly. Whatever it takes, they must get on the same, correct path that will fully and properly inform the public and proceed with just and moral action when it is necessary. If eloquently delivered ink on paper is not performed justly and properly, blood will be spilled in the streets. I am not giving

you a sign of what is to come, but telling what is known from history. And, the Laws of Nature govern all things.

People do not need “hope and change”, but “order and stability” to provide confidence and restoration. We should not be hoping for anything because that means it is not present but wishing it was. Confidence is a peaceful mind that order will be maintained or reestablished. Change is also something we do not need unless the subject in discussion can be clearly shown to possess flaws and produces a negative effect. Restoration is a vital point to be under discussion because it is no secret that past changes have produced flaws in the operations of the system and of social order. One thing that can be included with gaining confidence and restoration is to provide clarity to any point in our nation’s foundation that would aid in protecting it from future sabotages and misunderstanding.

For those of us who believe in the one true God, our primary duty is to preserve our soul by staying faithful in the Lord and maintaining vigilance in worship and prayer. Our secondary duty is to pray for and work toward making prudent changes to effect corrective solutions in our Earthly governing system. My work is in both.

### Topic (9)

#### Recommendations for Political Action

I have listed important recommendations with explanation as necessary. They are:

- A. Do not change the Constitution, but restore and clarify foundational issues where needed.
  - 1. Restore federalism. Repeal the Seventeenth and Sixteenth Amendments and in that order. This will restore sovereignty to the states and give them their proper authority and voice at the federal level—Federalism.
    - a. I recommend the following for the Seventeenth Amendment: State Legislatures shall select their Senators and determine the number of terms their senators will serve. State Legislatures may remove and replace their Senator for cause once per term or on death in office.
    - b. I recommend the following for the Sixteenth Amendment: States will set rate(s) and administer the collection of taxes on personal income, both active and passive.
      - 1. Businesses, where revenue and expenses are managed in accounts separate of a personal account, will not be taxed. Businesses have revenue not income. Capital Gains tax is a passive tax.
      - 2. Social Security, Medicare, and fuel taxes will be paid to the US Treasury and placed in their respective accounts. These funds can never be removed except for expenses to the just cause of the program. General Fund may be used to supplement them.
  - 2. Clarify the term Religion. Religion, a right, needs to be properly protected. To be specific, religion is based on a supernatural being. There is only one supernatural being known to man and that is the Lord, the God Almighty, Creator of Heaven and Earth, and specifically, the God of Abraham, Isaac, and Jacob. Anything else is just a faith or belief. Note: There is religion, God and prophets; and there are false religions, false gods, and false prophets.
  - 3. Clarify the term Inalienable Right. Right is a term that is being abused and misused. Clarity to the term freedom and rights is essential for the people to understand. Information on rights is given in Topic (7).
- B. Move all just and proper governing and personal activities to their lowest levels. Dissolve departments and agencies that do not fit with the role of the federal government. (i.e.

Dissemination Encouraged

## Read. Share. Discuss.

- Department of Education). This includes all activities that should be operated and managed at the state, local, or individual level. Restore federalism and self-governing principles.
- C. Reduce and combine departments and agencies that display excessive authority and latitude in government and limit their function, jurisdiction and authority. One example. I recommend moving the EPA to the Department of Interior and reduce their jurisdiction to matter with our bordering neighbors and disputes between states. And clear up issues that are declared environmental matters. Use science by known facts not theories, beliefs, or suspicions.
  - D. Whittle away at all excessive laws and regulations that hamper just and proper actions of the people and their businesses. Furthermore, all rules and regulations should be submitted to Congress for review and approval before any implementation can be established. Congressional oversight is essential. This will slow down and corral any attempt by departments and agencies to write large and numerous regulatory actions that might seem difficult to challenge afterwards.
  - E. Remove and outlaw unjust/immoral laws and ordinances. This is primarily directed at state and local level government. Our country is plagued with a destructive culture of sexualized and undisciplined behavior.
    - 1. Eradicate sexual immorality and the porn industry. This wickedness is perverting our country at its core, the soul of the citizen themselves. I recommend rescinding business licenses and all activity in manufacturing, transporting, advertising, distribution, retail, digital mediums and entertainment. Although a person may personally conduct sexual immorality, the granting of permission and consent to do it under a government granted license is disturbing. A MAJOR CONCERN.
    - 2. Discipline social behavior, a return to a more civilize people.
      - a. Good character and conduct must be desired and expected by all, including the young. It must be taught. It must be exercised daily. Violations must bear appropriate consequences. Implement the teaching and practice from kindergarten to schools of higher learning.
      - b. End PC. Reality must be realized. Truth must be accepted. You get what you earn. Opportunity to achieve does not mean you will. Not everything you want will be received, but without effort nothing is achieved.
  - F. Repeal socialist laws and programs (i.e. Obamacare). Shift these activities in graduation to the lowest level possible (i.e. people, church, or community organizations). Personal responsibility and private accounts should be the ultimate goal.
  - G. Do budgets like any budget. 1<sup>st</sup> remove waste. 2<sup>nd</sup> trim wants. 3<sup>rd</sup> down size specific expenditure groups where possible. 4<sup>th</sup> maintain justifiable needs (i.e. necessary salaries and expenses, national defense and safety requirements).
  - H. Across-the-board tax adjustments or spending cuts is illogical. These two prime elements of economics must be faced honestly and put right. One tax rate, not a continuation of a progressive rate scale, and not across-the-board cuts, but remove, reform and adjust spending lines to what they should be.
  - I. Processing the rule of law should always be in order of the sequence of events. There is always a cause and effect and an origin of the activities. Our courts should never take any action out of sequence in its hearing or rendering a verdict but determine each action in their order of occurrence. Rule on first action, then on the second, then all others in their order of occurrence. To rule on a subsequent event before determining the previous event will only lead to a perversion of justice and the rule of law.
  - J. Limit the making of new laws and concentrate more on performing oversight of your duties and responsibilities assigned. Make sure what is supposed to work is working efficiently and

Dissemination Encouraged

## Read. Share. Discuss.

effectively. When government is reduced in size and scope of power, oversight will be an easier task to perform.

- K. Stop talking about a Balanced Budget Amendment. The problem is not paying the bills, but that there are too many expenditures listed in the budget. Balancing the budget means paying for every line in the budget, when the real problem is that we need to remove expenditures from the budget. Let's remove the problems not lock ourselves into pay for them.
- L. A special note to the elected Republican officials in DC. Every federal department and agency has been contaminated and corrupted by President Obama and his administration. The Congress is conducting investigations on only what they know, but there are problems all through the federal government, organizations and other politically associated groups outside Washington. I suggest you have all committees begin a thorough investigation on their areas of oversight.

### Topic (10)

#### The Second Reconstruction Period or America's Awakening

You are probably saying, "Topic (9) is a nice wish list, but the reality of making these changes are more difficult than anyone can image." Reality does not escape me. Yes, this is my wish list. However, I do have a plan by which all of this can be accomplished. My plan, I call the Second Reconstruction Period (or America's Awakening), is designed to inform the public of these issues in detail and, thereby, getting their support in making the necessary changes. All changes in our system of government must begin at the public level. In fact, many of the recipients of this letter have already touched on elements of my plan in recent years. The only thing that is different is that I have a plan that answers their questions of implementation and that incorporate it at mass level with overwhelming effect. Everything the Left attempts to distort must be refuted immediately with truthful responses ten-fold or more. They present a fallacy; the response is given 10 or more times in truth. Overwhelming repetitive response to correct the B. S.'ing Left at every corner.

But, there is more. How and where are questions I have answered. The plan does require a very large team of knowledgeable and talented people to be assembled. The plan is too big for me to conduct, help will be needed. It is not directed from one point but from points all across the nation. Enough said on this.

If Rush Limbaugh and Mark Levin had a daily listening audience of 250 million + US citizens they would be out of business. Why? Well, the public would be in tune to reality and truth and eager to stay that way that the issues they talk about today would bearly exist. What am I saying, I want the public to be so in-tuned to reality and truth that discussing the flaws in public figures and the Leftist media would be nearly non-existent.

The how and where is in the details of my plan. Maybe someday the plan can be activated. I can only hope that the next Republican President would consider having me as an advisor or consultant. No, I do not want to overshadow him/her but be a valuable asset. As things are currently, I do not believe I, or anyone like me, will get that pleasure.

### Topic (11)

#### Recommendations to Constitutional Conservative Leaning Organizations (including the grassroots)

Constitutional conservative grassroots organizations are vital to the success of the mission to restore our national, state, and local governments to normalcy. There is too much power being wielded by unqualified representatives. In perspective, we need less power in the hands of our elected and appointed officials and they, each one, need to be qualified. Identify the issues and list those who are

Dissemination Encouraged

## Read. Share. Discuss.

not stepping up to defend just and moral actions. Identify elected officials not up to the duties and responsibilities of the office and find respectable and worthy challengers for the primaries where applicable. This action is for all offices local to federal. Get active. Work to build effective local teams and increase membership to help spread the word and take all necessary actions.

Increasing membership helps spread the word and continues the overall mission. Keep and maintain effective information for all persons on the ballot and of issues of today and the past. Knowledge and persistence is most valuable when combatting ignorance.

After each election, begin preparing for the next. Our most effective work is getting ready for the primaries. Vetting each candidate is essential. Where there is more than one solid candidate, try to persuade the others to run for other offices. There are plenty of offices and each office needs good representation to work as a whole. This also means no third party candidate to drain votes; focus on one person against the opposition. This means changing the faces of the Republican Party.

The need to properly vet candidates is extremely important. There have been several groups wishing to nudge or endorse individuals across our country to be President of the United States. From a quick look at some of the names and then their stance on issues makes me wonder who is behind the nudging. Look at ability and character, and how they stand on the full scope of the office they seek. For example, here are some that should not get our nudging or endorsement:

- A. John McCain is not a Reaganite or a conservative. McCain has too often sided with Leftist and is most noted for being a Populist. Weak against the Left. He lost in 2008.
- B. Mitt Romney fails to recognize the strength of the founder's wisdom and tries to create new government solutions to social and national issues. He is a Populist and weak against Democrats. He lost in 2012.
- C. Jeb Bush has terrible ideas about immigration and domestic issues. He should consider another office.
- D. Chris Christie is not a conservative and leans liberal on many issues foreign and domestic. He could be considered for some other position.
- E. Rand Paul needs more vetting, and I have serious concerns with his domestic and foreign perspective and ideas.
- F. Marco Rubio needs more vetting, and I have serious concerns with his domestic and foreign perspective and ideas. Is weak on immigration.
- G. Ben Carson is unfamiliar with the foundational principles of our Constitution, does not understand economics, and is disarray on foreign policy and military functions. He presents himself as a populist, courting acceptance. We should consider him for another position, perhaps US Surgeon General.

As a concerned citizen, I am interested in finding candidates that meet the complete package for duty in the office they seek. Not someone because it is believed he/she would be good for the economy, or tough on immigration, but all duties of the office, or at least, as much as we can find. The person should have good character, able to express their ideas clearly and concisely, and has the fortitude to back up their position for restoring matters in our country, state or city. We need a total package.

To groups and organizations.

Anyone who may seek or be nudged for the office of President of the United States, or to any office, should be vetted on all functions of the office, possess strong and honorable character, faithfulness to the foundational principles and values of the Constitution, willingness to consult valued consultants for advice, loyal to our allies, distant to our enemies, and true to our nation. I ask all organizations to list all valued and appropriate categories of the office and measure each potential candidate on where they stand on each line of duty and responsibility, plus personal stature. This idea of thinking any person is qualified because of race, gender, or good standing on one or a few issues is, in my words,

Dissemination Encouraged

## Read. Share. Discuss.

lunacy and unforgiveable. I recommend each group or organization dealing with potential voters to do a valued service and properly vet these likely candidates in factual lines of good to poor and explain your findings. No more meaningless dribble and falling to the knees to praise them with no or little evidence to support your claim. If you think someone is worthy of our votes, prove it.

Organizations need to go for 100% success across the country, in every state, and every district. We need to solidify the Red and simultaneously move in on the Purple and Blue. We should not wait till some later time to take the next stage of action on potential candidates. We must have a take-ALL attitude. Educating and informing the masses in our neighborhoods and states is a must. Increasing membership to all active groups is a must.

One key to improving awareness in the masses today and tomorrow is to reach out to the young. We need to bring them in from junior high school through colleges and from the local businesses they work. Bring them in where they can see reality and truth and then visualize and vocalize the truth in the message delivered. If they can see and experience it, they can tell you why limited government, free markets, individual responsibility and other conservative ideas work. There are many ways for the eyes of the young to be opened. Finding the method and technique that fits best for your group is up to you.

### Topic (12)

#### Important Subjects

##### A. The meaning of religion.

Not understanding the actual meaning of a word can be damaging, and not understanding an important word, like religion, can be devastating to all. The dictionary describes religion as a faith in a supernatural being. There is only one supernatural being, that being one who has the true power and authority of all His creation. The only known power to create is the Lord God found in the Holy Bible and the Torah. No other faith can actually point to the true existence of a god in their faith. Yes, that is correct. No other faith can actually validate the existence of the god they pray and worship.

I can see readers gasping at what they just read. Okay, if you doubt me, challenge me.

Religion or false religion? God or false god? Prophet or false prophet? I am not talking about beliefs or faiths, for they are subcomponents to religion and false religion alike. However, religion and true prophets all have one thing in common, the one true God, the Lord, the God Almighty, Creator of Heaven and Earth, the God of Abraham (name given him by the Lord), Isaac, and Jacob (Israel, the name given him by the Lord). For it is from God alone that we can have a true prophet, and the ancient writings provide the written Word for a true religion. That makes the Torah (Book of the Jews and the first five books of the Holy Bible) and the Holy Bible (used by Christians) translations of the true ancient writings. Every other belief or faith in a so-called god is a false religion. And, a true prophet must prophecy what he has been given by the true God, and that word, later, must come true. So, any faith other than Judaism or Christianity is just a faith, not a religion.

##### B. Are we adding carbon dioxide into the atmosphere?

You may be saying, "We do not want to put carbon dioxide into the air." When the media and educators say this, it is usually assumed by the listening public that carbon dioxide continues to accumulate, day after day, week after week, year after year, into the atmosphere. Let me give you my reply based on science.

1. If carbon dioxide goes into the air, how long does it stay there? Only while it is lighter than air.
2. At room temperature, by volume, carbon dioxide is heavier than air.

Dissemination Encouraged

## Read. Share. Discuss.

3. Carbon dioxide goes into the air by a chemical reaction. Heat makes carbon dioxide weigh less than air, and, therefore, rises while warm.
4. Wind and the cooling of carbon dioxide make it heavier and it falls out of the sky.
5. Precipitation (rain and snow) cleanses the air of foreign matter.
6. The atmosphere can only hold so much foreign matter and for so long.
7. Example of gases:
  - a. Smog exists during hot summer days, not during cooler times of the day or year.
  - b. Acid rain once cooled falls out of the sky.
  - c. Greenhouse gases only exist where it is warm enough.
8. To evaluate a comparison, gases must be in their natural state, at room temperature, and same volume of space. Using Periodic Table of the Elements will not give you their natural molecular weight.

The fact is carbon dioxide and most other gases that enter the atmosphere under chemical change are gone by morning. It is best not to assume an effect by a cause, but to search for the actual effect upon its different stages of existence. In other words, investigate and ask questions, especially of things not spoken or disclosed.

### C. Right to protest and strike is beyond peaceful assembly.

Peaceful assembly is the limit to any group's gathering to voice grievances. Protestors do not have the right to interfere with or obstruct the rights of other citizens of the community, to include: travel, and conducting their business.

Strikers do not have the right to interfere with or obstruct the property rights and its use by owners and investors. Affected parties include all parties of the physical property, investors and debtor's, and fulfillment of contracts with vendors and customers.

Protest and strikes can only be allowed lawfully to peacefully assemble and voice grievances. Prime purpose of government is to protect the liberties and rights of its citizens, all citizens of the community. What has been allowed to happen by strikers and protestors, in many cases, over the past decades is a violation of the rights of all citizens of the community.

### D. Land confiscation by the federal government.

The Constitution has set specific purposes for the federal government to possess and utilize land. Taking and restricting land for national parks, animal preserves, and historical claims is not authorized power of the federal government. These lands belong to the states in which they lay, and the use and restrictions which may be applied is up to the respected state. The subject state can determine the use and controls to be applied to the land.

### E. Abortion of human life.

Abortion of human life at any stage of its growth and form is a violation of the human race, a sin against the Creator, violates the Constitution, and is murder. From conception, the new life is a separate life and has its own DNA, therefore, it is a human life separate of the mother. No innocent life can be taken. If a woman is sexually assaulted, then the person(s) committing the crime must be properly identified and tried. The pregnancy must go to term and be delivered, unless some complications prevent.

### F. Balance Budget Amendment.

Why do so-called conservatives want a Balance Budget Amendment? I do not want it, and I will tell you why. Our country has a problem with the line items in the budget. Once we remove departments,

## Read. Share. Discuss.

agencies, and socialist programs that are not part of the federal government's responsibilities, and a list of handouts to special interest, we will have a budget that can be balanced with the most minimal of taxes.

The Balance Budget Amendment would simply require the federal government to project sufficient tax revenue to cover expenses. The Democrats would not have a problem with that. Nothing will be removed from the budget, but tax revenue will be increased to pay for every dollar of expenditure in the budget. Therefore, if we look at today's situation, taxes would be raised to X% immediately.

Now, is covering the budget what you want, or do you want to put the budget in line with Constitutional responsibility? That is what I thought. Please stop bringing up this Balanced Budget Amendment idea. Let us start attacking the lines in the budget that need to be removed.

### Topic (13)

#### Misuse of Words, Phrases, and Ideas

There are many words, phrases and ideas that are misused. My plan is to give you a good taste of the language difficulties we are encountering in our country. From this, it would be a good idea for us to start correcting the media and the people of the correct use and meanings and to stand clear of fallacies. Here are some of the words, phrases, and ideas I wish to present to you:

Rights. Discussed in Topic (7).

#### • Tolerance.

The only thing to tolerate is that which cannot be changed, or when there is no alternative or choice. For example, I tolerate the weather because it is what it is and there is no option. I do not tolerate another's beliefs, gods, or other ideas that are not true and just. I do not tolerate people of bad character or of illogical thinking. I do not choose to be around butt scratchers or bad breathe. I choose my friends and my organizations. I remain congenial to all.

#### Compromise.

Where did this idea to compromise come from, the weak in heart and character? I do not compromise for part good and part evil. I will not compromise with the evil in your mind, but spend as much time as need be to show you the fault of your think. I do not, and cannot, embrace God and dance with Satan. I will seek only the loving embrace of the Lord God, not one step with the deceiving dance steps of Satan.

#### America is responsible for slavery.

This is not true. Slavery throughout history has always been casted on a people by their own brothers. Africans captured and sold their own brothers into slavery, much the same in other lands before. Slavery was introduced to this continent in early-to-mid 1600's by foreign traders, and the continent was overseen and governed by European nations. America did not declare independent till 1776 and become a nation a few years later. It is America and England that pursued the end of slavery and finally accomplished that task. America ended slavery, not start it.

#### Think outside of the box.

Why think outside of the box when the issue is in the box. The answer is where the problem is. The cause and effect is in the box, therefore, the answer lies with the problem. There are always those who think the answer is somewhere else, so they go on an endless journey away from the problem to find answers. The Left's creative thinking is so bizarre. A term that is illogical.

Need creative ideas/alternatives.

Another false premise. Those who do not see reality or seek truth look for answers elsewhere.

History and the way of nature tells us so much. The clueless and ignorant are always thinking there is something never tried. Just look at the past, then restore and return to reality.

You can be anything you want to be.

The idea that everyone can become whatever they want is false and held back by two things.

First, you must have the talent and qualities that can be developed to that end, which includes the character and drive to learn, practice, and endure the requirements necessary. Second, you must have the freedom and opportunity which allows you to take the first to excel. When those two do not come together, dreams cannot be fulfilled. America must keep personal freedom and opportunity open, thereby leaving the person to encounter and accept personal responsibility for conduct and accountability. Socialism cannot, and will not, open these doors.

Common ground.

Common ground between political rivals is either based on minor points of an issue or drawn out of essence of time-critical necessity, a force of the hand. There is no substantial meat on the table of any issue between rivals unless expediency overshadows and compels the matter. In other words, two different fields of thought do not have common ground, which is why we make the opportunity to discuss, learn, and adjust our beliefs. We are called humans. Some can discern and some cannot.

Both sides are...

It goes something like, both sides are wrong, at fault, or guilty of... But that connection last only a moment for Leftist, because they are ready to point the finger at and make accusations about one side. When the side they want to protect or the one they dislike is involved in an issue. It is not the criminal, but the law enforcement personnel that must understand the other or be retrained. It is the Christian that needs to be tolerant or follow some non-scriptural reference. It is the business that must retrain its employees, etc., etc.

The just and obedient citizen must understand, be tolerant, take sensitivity training or some action they direct to change our ways. The Left must attack us with demands for change in us, but not related to the facts of the matter. Reality and truth do not matter. This is another sign of a move to social justice. Not true justice and acceptance of truth, but court held in the streets based on their perception of truth and justice. A society of ill-informed and un-informed citizens holding the rest as hostage to their demands of correctness.

This is also the common response by the Left when they or someone in their ranks has undeniably been caught in the wrong. Their immediate response to cloud the issue and move the subject away from their side's action is to say, Republicans do it also. I do not like the Left bringing us into their mess. The simple and immediate response should be, prove it. Push them to prove it. They cannot. Democrats refuse reality and run from truth or any discussion containing it. A Republican welcomes a discussion based on truth.

The law or some system is broken.

I hear this claim a lot. I, as a voter, want to know what is broken. Explain what is broken and address your desires for corrective action. The usual problem has more to do with enforcement or the lack thereof. If the law is being adhered to faithful and with integrity and there is a problem, then a case may be worthy of adjustments. The problem, in most cases, is the lack of execution. Again, the response is, prove it.

That conservatism is the political Right.

Conservatism is not Right, but right on. Conservatism, true conservatism, is center and aligned with the Constitution, personal freedom, individual rights, reality and truth. Conservatism is not Right but Center for the United States of America.

Extremist or fundamentalist (by Leftist claims).

I cannot express the Left's idea of extremist or of fundamentalism, it does not make sense. An extremist or fundamentalist is actually a true and faithful follower of the belief and ideas of their conviction. Therefore, if you disagree with an extremist or fundamentalist, then you disagree with someone holding true to their belief and ideas. Leftist like to portray them as someone who has left or violated a belief, but, actually, it is the moderate that is not faithful to their beliefs.

I am one who considers myself as a fundamentalist, and that is a badge of honor.

Wealthy is...

Wealth is the abundance of any personal attribute possessed, tangible or intangible, including: spiritual awareness, talent/skills, knowledge, ability, property and financial strength or even the fortitude to accept challenges and opportunities in life. Wealth is a gift from God.

Fair.

Fair is the just and true result(s) of any cause by or in nature or by or between humans. Fair is what it is, and it does not conform to our personal desires or wants. Fair is governed by reality and truth. And, the workings of the Lord God are fair.

Diversify

Diversification should never be determined by external conditions, like race, but for need to reduce risk and expand opportunity of the entity. A person diversifies his financial portfolio to reduce risk and to expand opportunity for financial gains. A company diversifies its product line to reach the different needs of their clientele or increase market holdings. A group will have little diversification of its message and purpose but will in its methods of operation or outreach. In short, it is the person, business or group that diversifies to its needs. Race, gender, beliefs or physical characteristics cannot be mandated by any external group, including the government. Inclusion of anyone can only be based on applications received and qualifications met, and that qualification standard is determined by the entity alone.

America must...

There is this ongoing Leftist idea that America and its people must be tolerant of other beliefs or customs. This idea, as strange as it is, has been forced on the conscious mind of Americans that we must tolerate and accept every idea, belief and custom that is foreign to the foundational principles and values of the nation. This is crippling our nation and tearing away at what made this country special across the globe.

It is the responsibility of those who wish to come to our land to accept our principles and values. If you want to be an American, then act like it. America is a steadfast land and people. Just as it does not move in on others making them accept our ways, neither should others come here to think that we must accept theirs over ours. Anyone going to a family, group, or business should do so with the intent to embrace the beliefs, values, and culture that exist within. And, often, this thinking is directed at one group of Americans from another group of Americans. Yes, even within our own people the attacks on Americans persist.

## Read. Share. Discuss.

Sensitivity training is another, 'America must'. It is this thought that Americans must be retrained to understand other people, beliefs, and culture, not for them to understand ours. The whole argument of 'America must' is totally misdirected, often to one specific group. Why does the finger get pointed at our children and the civilized, law-abiding citizen?

### White privilege

There is no such thing as white privilege. In nearly every situation of life, there is no privilege awarded to anyone based on race. Good, civic, personal character will always lead to opportunities of privilege and doors being opened. The privilege any one is going to be granted will first be based on character. Character is the essential element for solid friendships and association with others. Character is the driving force that opens doors to privileges that might be awarded. Other privileges come from talents, experience, education, and the ability to conduct and complete assignments thoroughly and with little oversight.

One common privilege comes from citizenship by birth where opportunity is open and granted—a privilege of automatic membership in the group.

Privilege is like respect, these are things that must be earned. Privilege and respect given without being earned is a foolish thought.

### Social justice

Our laws are based on equal justice, where each is treated equally by and under the law. Social justice is based on social criteria, where social characteristics and the mob community serve over the law. Therefore, social justice is not justice but trial void of truth and law. There is no place for social justice in a court of law or any facet of a civil society.

### Democratic

Democrat is a Party. Democratic is an ideology and process. Democrat Party is not democratic but a conglomeration of all the failed political, economic, and social ideas known to mankind.

### Unions created the middle class

The middle class is a result of the industrial age and inventions that was accelerated by the implementation of the assembly line. New products and processes came into the lives of the American people which they became the beneficiaries of this age. The unions were effective in setting reasonable work hours and safe work conditions. However, the driving ideology of the union movement is Marxism, the delusional thinking of a destructive economic and political philosophy created by Karl Marx, along with Friedrich Engels.

### Times change.

This term is used as if things must change eventually. Well, what things? God's law does not change. The laws of nature do not change. Morals and ethics do not change. I guess I just described the big things in life that do not change. So, what changes in time? Nothing important.

### The use of tax revenue for or against public policy or law

I hear too often the debate begins and ends on the desire for a policy or law based on the tax revenue it will generate for X, Y, & Z or of the expected loss of tax revenue. No policy or law should be considered on the matter of tax revenue. All public policies and laws should be measured on the effect it would have on the people's personal freedom and individual rights, and secondly, on whether it is just, moral and ethical. For example, lotteries and toll roads have been primarily considered on generating tax revenue, while the abolishment of pornography and strip joints on the

## Read. Share. Discuss.

potential loss of tax revenue. Shame on the person who would use tax revenue generation as a central point of a discussion about public policy.

There are many words, phrases, and ideas that are misunderstood or twisted. The Left has been altering our language and deceiving the public for years. It is time we get our language back to its proper meaning and ideas are put on the level with reality and truth. Are you with me? Then let us be more aware of this fact and start correcting it all through society.

No society can keep changing things and expect all things to stay the same. Just like increasing the minimum wage, the effects will ripple through society by adjustments and removals of various factors till it settles at new norms. Economics tell us that one change gives us many subsequent changes. And, understanding the cause and effect of these changes is essential before action is taken.
