### INDEPENDENT AUDITORS' REPORT

To the Members of the Authority  
South Carolina State Education Assistance Authority  
Columbia, South Carolina

We have audited the accompanying financial statements of the Enterprise Fund of the South Carolina State Education Assistance Authority as of and for the years ended June 30, 2003 and 2002 as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Enterprise Fund of the South Carolina State Education Assistance Authority and present fairly its financial position as of June 30, 2003 and 2002 and the changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Enterprise Fund of the South Carolina State Education Assistance Authority as of June 30, 2003 and 2002, and the changes in its financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. In accordance with *Government Auditing Standards*, we have also issued a report dated August 28, 2003, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of this audit.

The Management's Discussion and Analysis on pages 2 through 5 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were performed for the purpose of forming an opinion on the financial statements of the South Carolina State Education Assistance Authority taken as a whole. The accompanying supplementary information in Schedules 1 through 5 is presented for the purposes of additional analysis and is not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

## **South Carolina State Education Assistance Authority Management's Discussion and Analysis**

The South Carolina State Education Assistance Authority (Authority) functions to guarantee and provide financing for education loans for students and parents. As a guarantor, the Authority processes loans submitted for guarantee, issues loan guarantees, provides collection assistance for delinquent loans, pays claims for loans in default, collects loans on which default claims have been paid, and makes appropriate responses to the Secretary of the U. S. Department of Education (Secretary). As a provider of financing, the Authority issues bonds to finance education loans.

The Authority was originally created to provide a means of making loans to students in order to enable them to attend eligible institutions, as such terms are defined in the Higher Education Act. Such loan financing has been conducted by the Authority through its Student Loan Finance Program which has been administered by the South Carolina Student Loan Corporation (Corporation) since its inception.

The Corporation and the Authority have entered into Loan Agreements pursuant to the terms of which the Authority has agreed to lend bond proceeds to the Corporation to enable the Corporation to make or acquire education loans. The obligation of the Corporation to repay the finance loans is evidenced by a promissory note of the Corporation and is secured by a pledge under the Loan Agreement.

This section of the Authority's annual financial report presents a discussion and analysis of the Authority's financial performance for the fiscal year ended June 30, 2003. Please read it in conjunction with the Authority's statement of net assets, statements of revenue, expenses and changes in net assets, statement of cash flows, and the notes to financial statements, which follow this section.

### **FINANCIAL HIGHLIGHTS:**

•	The Authority's total assets at June 30, 2003 were approximately \$ 653,963,000, which is a decrease of approximately \$ 35,578,000 or 5% under June 30, 2002.
•	The Authority's finance loans at June 30, 2003 were approximately \$ 261,073,000, which is a decrease of approximately \$ 46,769,000 or 15% over June 30, 2002.
•	The Authority's operating revenue for the fiscal year ended June 30, 2003 was approximately \$ 36,775,000, which is a decrease of approximately \$ 4,628,000 or 11% under the fiscal year ended June 30, 2002.
•	The Authority's interest expense for the fiscal year ended June 30, 2003 was approximately \$ 11,300,000, which is a decrease of approximately \$ 1,866,000 or 14% under the fiscal year ended June 30, 2002.
•	The Authority's total other operating expenses for the fiscal year ended June 30, 2003 were approximately \$ 30,110,000, which is an increase of \$ 9,223,000 or 44% over the fiscal year ended June 30, 2002.
•	The Authority's change in net assets for the fiscal year ended June 30, 2003 was approximately \$ 4,979,000, which is an increase of 7% over the previous fiscal year.

## **OVERVIEW OF THE FINANCIAL STATEMENTS:**

The Authority's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied on an accrual basis. Under the accrual basis of GAAP, revenues are recognized in the period in which they are earned and expenses are recognized in the period in which they are incurred. The three basic financial statements presented within the financial statements are:

Statement of Net Assets – This statement presents information regarding the Authority's assets, liabilities and net assets. Net assets represent the total assets less the total liabilities. The statement of net assets classifies assets, liabilities and net assets as current, long-term and restricted.

Statement of Revenues, Expenses and Changes in Net Assets – This statement presents the Authority's interest income, cost of funds, operating expenses and changes in net assets for the fiscal year.

Statement of Cash Flows – The Authority's statement of cash flows is presented on the direct method of reporting, which reflects cash flows from operating, non-capital financing, capital and investing activities.

## **FINANCIAL ANALYSIS OF THE AUTHORITY:**

The Authority's total net assets at June 30, 2003 were approximately \$ 128,458,000, which is an increase of approximately \$ 4,979,000 or 4% over June 30, 2002. Components of the Authority's balance sheet as of June 30, 2003 and June 30, 2002 were as follows:

	<b>2003</b>		<b>2002</b>		<b>Percentage Increase/(Decrease)</b>
Current Assets	\$	441,387,656	\$	437,524,394	1%
Capital assets		94,786		60,952	56%

Total Net Assets	\$	<u>128,458,264</u>	\$	<u>123,479,482</u>	4%
Total Liabilities and Net Assets	\$	<u>653,962,631</u>	\$	<u>689,540,482</u>	(5)%

Please see Note 6 and Note 8 respectively for more detail on capital assets and long-term debt activity. The decrease noted above in the Authority's total assets is due to the timing of the issuing of bonds and subsequent increase in finance loans. The issuance of the 2003 Series bonds totaling \$ 100,150,000 in August 2003 came after the fiscal year end. Total assets were reduced from approximately \$ 689,540,000 at June 30, 2002 to approximately \$ 653,963,000 at June 30, 2003. Finance loans were reduced over 15% from approximately \$ 307,842,000 at June 30, 2002 to approximately \$ 261,073,000 at June 30, 2003.

Components of the statement of revenues, expenses and changes in net assets for these two fiscal years are as follows:

	<b>2003</b>		<b>2002</b>		<b>Percentage Increase/(Decrease)</b>
Loan Interest Income	\$	27,335,721	\$	28,726,792	(5)%
Guaranty Agency Income		6,470,719		5,618,458	15%

Interest Expense	\$	<u>11,299,575</u>	\$	<u>13,165,475</u>	(14)%
Other Operating Expenses:					
General Administration		3,535,790		2,313,160	53%
External Loan Servicing		5,615,073		6,835,523	(18)%
Borrower Incentives		14,759,217		6,515,415	127%
Consolidation & Lender Rebate Fees		3,559,425		3,487,214	2%
Other Fees		<u>2,640,288</u>		<u>1,735,564</u>	52%
Total Other Operating Expenses	\$	<u>30,109,793</u>	\$	<u>20,886,876</u>	44%
Total Operating Expenses	\$	41,409,368	\$	34,052,351	22%
Total Non-Operating (Income) Expenses		<u>(9,612,697)</u>		<u>2,695,995</u>	(457)%
Change in Net Assets	\$	<u>4,978,782</u>	\$	<u>4,655,323</u>	7%

The increase noted above in the Authority's change in net assets of approximately \$ 323,000 over the past year relates primarily to the Authority's borrower incentive programs. By continuing to offer incentives, the Authority has lowered its arbitrage liability by approximately \$ 9,613,000.

The decrease in loan interest income, investment interest income and interest expense during the year ended June 30, 2003 are due to a decline in short term interest rates.

As noted above, the Authority's other operating expenses for the fiscal year ended June 30, 2003 grew by 44% over the previous fiscal year. The large increase was due primarily to fees paid for default aversion activities on new loans and the Authority offering borrower incentives. The Authority, in an effort to reduce a substantial arbitrage payable to the Federal Government, continued borrower incentive programs for new loans.

The Authority prepares an annual operating budget that is used as a management control device for tracking the various expenses. Accounting principles generally accepted in the United States of America do not require a comparison of budget to actual expenses for enterprise funds.

Non-operating expenses decreased approximately \$ 12,309,000 or 457% due to the Authority's borrower incentive programs reducing arbitrage payable.

### **DEBT ADMINISTRATION:**

The Authority has funded student loan notes by issuing tax-exempt bonds. The bonds must be approved by the Authority's and the Corporation's boards prior to being issued. Tax-exempt bonds also must receive an allocation of the State of South Carolina private activity volume ceiling or "cap". In addition, the issues must comply with federal statutes and with the rules and regulations of the United States Treasury Department.

At June 30, 2003, the Authority had \$ 505,610,000 principal amount of bonds payable, a decrease of less than 1% from the \$ 509,010,000 principal amount outstanding at June 30, 2002. Detailed information on the Authority's debt is presented in Note 8 to the financial statements.

All \$ 505,610,000 of Authority debt is publicly held and has long-term credit ratings assigned by Moody's Investors Service (Moody's) and Standard and Poor's (S&P) based on the type of security as shown in the table below. The credit ratings have been maintained, and periodically the ratings have been confirmed in connection with new parity debt issues or extensions of recycling periods.

<u>Credit Rating(s)</u>	<u>Principal Amount</u>	<u>Type of Security</u>
AAA S&P or Aaa Moody's	\$ 462,075,000	Senior Lien
A S&P or A2 Moody's	\$ 43,535,000	Subordinate Lien

### **CONDITIONS AFFECTING FINANCIAL POSTION:**

The Authority has experienced significant growth in all aspects of its operations. With the increase in the volume of student loan applications being processed, the Authority's fiscal year 2004 reflects continued growth. The Authority has added additional staff to handle the additional work associated with this growth. The Authority's budgeted administrative expenses for the fiscal year 2004 reflect the additional costs to be incurred as a result of the increase in staff.

Lower interest rates at June 30, 2003 will result in student loan interest rates being reduced during the fiscal year ending June 30, 2004, which will cause a reduction in loan interest income to the Authority.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

1. Summary of Significant Accounting Policies:

1.1 Reporting Entity:

The South Carolina State Education Assistance Authority (Authority) is a body politic and corporate and a public instrumentality of the State of South Carolina. The Authority is a part of the State of South Carolina created by Act No. 433 of the Acts and Joint Resolutions of the General Assembly for the year 1971, now codified as Chapter 115, Title 59 of the Code of Laws of South Carolina, 1976, as amended. The Authority is governed by its members, who under the Act are the members of the State Budget and Control Board (Board). The Board consists of five (5) members by virtue of their position in state government. They are the Governor, Treasurer, Comptroller General, Chairman of Senate Finance Committee and Chairman of South Carolina House of Representatives Ways and Means Committee.

The Authority is considered to be part of the State of South Carolina because of the common Board and its financial accountability over the Authority. The funds of the Authority are included in the Comprehensive Annual Financial Report of the State of South Carolina. The financial statements of the Authority present the financial position, results of operations and cash flows solely of the Authority and do not include any component units, organizations, or other funds of the State of South Carolina.

The Authority discharges its statutory obligations through two distinct programs. The program through which the Authority conducts its guarantee activities is herein referred to as the "Student Loan Insurance Program." The program through which the Authority finances the making of education loans by the Corporation is herein referred to as the "Student Loan Finance Program."

The Authority was originally created in order to provide a means of making loans to students in order to enable them to attend eligible institutions, as such terms are defined in the Higher Education Act. Such loan financing has been conducted by the Authority through its Student Loan Finance Program which has, since its initiation, been administered by the Corporation.

The Authority has been authorized by the State of South Carolina to issue revenue bonds for the purpose of making student loans. The Authority has approved South Carolina Student Loan Corporation (SCSLC) as an eligible lender under its program and has designated it as the private, non-profit agency to administer these loans. It is the duty of SCSLC to process applications, make student loans and collect principal, interest, fees and penalties on such loans. Loans may or may not be subsidized. Interest is paid on subsidized loans during the enrolled, grace, and deferred periods by the U.S. Department of Education. Upon entering the repayment period, the interest is paid by the borrower. Also, the U.S. Department of Education pays SCSLC a special allowance which is based on a variable percentage of the unpaid principal of the loans. This income is a reimbursement to help offset administrative expenses and payments of bonds. SCSLC remits this income along with the principal and interest collected on loans to the Authority as it is received for bonds under the 1993 resolution. Under the 2002 resolution, only a portion is required to be reimbursed as defined by the 2002 bond resolution.

1. Summary of Significant Accounting Policies (Continued):

1.1 Reporting Entity (Continued):

The operations of the Authority are administered by employees of SCSLC. The Authority reimburses SCSLC upon request for the actual operating expenses incurred in the administration of the program in accordance with a previously approved budget. All leases are in the name of SCSLC and the Authority pays its pro rata share based on space occupied, equipment usage, and loan servicing costs.

Neither the Authority nor SCSLC is considered a component unit of the other because each is a legally separate organization and not financially accountable to/for the other.

In May 1978, the Authority initiated its Student Loan Insurance Program and commenced guaranteeing Guaranteed Loans as the guaranty agency for the State under §428(c) of the Higher Education Act. In order to administer its Student Loan Insurance Program effectively, the Authority processes loans submitted for guarantee, issues loan guarantees, provides collection assistance for delinquent loans, pays claims for loans in default, collects loans on which default claims have been paid, and makes appropriate responses to the Secretary. The Authority is also responsible for initiating policy and performing compliance reviews as required by the Higher Education Act with respect to certain schools participating in the Student Loan Insurance Program.

1.2 Business – Type Activity:

The accounts of the Authority are organized on the basis of funds, each of which is considered a separate accounting entity. The operation of each account uses a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, revenue and expenses.

The Authority's Enterprise Fund, called "Education Assistance Fund", reports the activities to fulfill the entity's authorized purposes of issuing revenue bonds to finance student loans which are handled by South Carolina Student Loan Corporation and guaranteeing guaranteed loans. The Authority's Enterprise Fund is composed of the 2002 resolution, 1993 resolution, agency operating account, and the federal student loan reserve account. These accounts, except for the federal student loan reserve account and agency operating account, constitute pledged income for the liquidation of outstanding bonds after transfers for operations.

The Authority reports net assets reserved for current debt service as the accrued interest plus ten months of the outstanding bond principal due as of year end as required by the bond indentures (see Note 7). Under the 1993 Bond Resolution, restricted for bond indentures represents net assets for future debt service and includes six months interest to become due on the principal amount or three percent of the outstanding bond principal as specified under each bond series plus principal and interest collected on student loans not yet required to meet current debt service or used to make student loans. Under the 2002 Bond Resolution, restricted for bond indentures represents net assets for future debt service and includes one percent (1%) of the outstanding bond principal as specified under each bond series plus principal and interest allocated on student loans not yet required to meet current debt service. Under the bond resolutions, the restricted for bond indentures also includes one to four months projected operating expenses and any unamortized costs of issuances. The unrestricted is the residual equity not legally reserved for bond indentures.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

1. Summary of Significant Accounting Policies (Continued):

1.2 Business – Type Activity (Continued):

The 2002 and 1993 resolution accounts each include a sinking account that is used to deposit the proceeds from the sale of bonds and collections on loans including federal interest and other resources so designated, such as gifts, grants, appropriations and income from SCSLC which, as lender, bills the Department of Education directly. All investment income on investments in the debt reserve part of the sinking account is recorded in the sinking account as required by the bond indentures. The sinking account is used to make transfers to the debt reserve and loan accounts.

The 2002 and 1993 resolution accounts each include a debt reserve account that is a part of the sinking account. Simultaneously with the issuance and delivery of any series of bonds, the Authority is required to deposit monies equal to the debt reserve requirements, based on a percentage of outstanding bonds, into the debt reserve account. These requirements include the forward funding of the debt service monies necessary to make debt service account interest, principal and cumulative sinking fund payments when due and payable. The current debt service account must contain accrued interest payable and a portion of the outstanding bond principal as of June 30, as required in the bond indentures. The balance of the account for future debt service consists of a portion of the original bond issue and a portion of the outstanding balance.

The 2002 and 1993 resolution accounts each include a loan account that is used to deposit bond proceeds which are transferred from the sinking account for the purpose of making loans and paying the cost of issuance of bonds. Other transfers from the sinking account are deposited into the loan account to reimburse monies which have been transferred to SCSLC for operations.

The Federal Student Loan Reserve Account is used to account for activity as required by the 1998 reauthorization of the Higher Education Act. This account is used to account for investment income and insurance premiums withheld from borrower's loans. The Authority has not charged insurance premiums for loans guaranteed since March 1, 1999; however, the Authority reserves the right to reinstate such charges at such times and in such lawful amounts as it deems appropriate. Amounts in the Federal Student Loan Reserve Account can only be used to pay lender claims on defaulted loans and to disburse default aversion fees to the Agency Operating Account for default aversion activities. Upon payment to lenders for defaulted loans, these funds are then reimbursed to the Federal Student Loan Reserve Account by the U. S. Department of Education at a percentage determined by the Authority's default rate. Payments to lenders for defaulted loans are recorded as Federal Reinsurance Receivables. Reimbursement by the U. S. Department of Education reduces the Federal Reinsurance Receivable. The Authority has always received the maximum reimbursement allowable under the Supplemental Guarantee Agreement and does not anticipate falling below this level (See Note 3).

The Agency Operating Account is used to account for all loan processing and issuance fees, account maintenance fees, default aversion fees, and the retention on default collections. The U. S. Department of Education pays all of the fees except the default aversion fees reimbursed by the Federal Student Loan Reserve Account. The loan processing issuance fee is equal to 0.65% of the total principal amount of loans originated during the fiscal year. The

account maintenance fee is equal to 0.10% of the average original principal balance of loans outstanding for the fiscal year. The default aversion fee is equal to one percent of the principal and interest of a loan upon which default aversion activity was performed. This is reimbursed from the Federal Student Loan Reserve Account. Should this loan subsequently default, the default aversion fee is refunded back to the Federal Student Loan Reserve Account. Retention on Default Collections is reported by the Authority directly to the Department of Education for services it performs in its role as guarantor. The Authority recognizes income related to a specified portion (24% in 2003 and 2002) of collections adjusted for certain items made on behalf of the Federal government on defaulted loans. The remaining balance of collections is remitted to the Federal government. The total cumulative value at June 30, 2003 and 2002 of all defaulted student loans purchased by the Authority is \$ 129,196,905 and \$ 110,683,794, respectively (See Note 3). The Authority records the purchased defaulted loans as assets, but only recognizes its portion of the share of any recoveries in the year of collection. Funds in the Operating Account can only be used for application processing, loan disbursement, enrollment and repayment status management, permitted default prevention activities, default collection activities, school and lender training, compliance monitoring and other student financial aid related activities as determined by the Secretary and for voluntary irrevocable transfers to the Federal Student Loan Reserve Account. Except for funds transferred from the Federal Student Loan Reserve Account, the Agency Operating Account is considered to be the property of the guaranty agency.

1.3 Basis of Accounting:

The accrual basis of accounting is used for the Education Assistance Fund. Under the accrual basis of accounting, revenue is recognized when earned, and expenses are recorded when incurred. Investment income is recorded at stated interest rates with no amortization of premiums or discounts. Net increase (decrease) in the fair value of investments include unrealized and realized gains and losses. Bond payable premiums and discounts are amortized over the life of the bonds and netted against interest expense. The Authority applies all Government Accounting Standards Board (GASB) pronouncements and all Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, when not in conflict with GASB pronouncements. In accordance with GASB Statement 20, the Authority has elected not to implement FASB Statements 103 and after.

1.4 Budget and Budgetary Accounting:

Certain expenses for the Enterprise Fund are budgeted as a management control device. However, the cost of issuing bonds, SCSLC expenses, interest expense, reinsurance and other fees and revenue are not budgeted. Accounting principles generally accepted in the United States of America do not require a comparison of budget to actual expenses.

These budgets are approved by the SCSLC Board and the State Treasurer and are not adopted by the Legislature or printed in the Appropriations Act. The Authority is subject to State laws and regulations.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

1. Summary of Significant Accounting Policies (Continued):

1.4 Budget and Budgetary Accounting (Continued):

Expenditures in excess of the budgeted amounts are not in violation of State laws. However, these are approved by the Board.

1.5 Compensated Absences:

Depending on length of employment, employees earn annual vacation at the rate of ten (10) to twenty-five (25) days per year. Employees are expected to use at least one week (5 consecutive days) each year. An employee may not carry forward more than five (5) vacation days to the next year without the supervisor's permission. Earned, but unused, annual vacation will be paid when an employee terminates employment except when this termination is involuntary or inadequate notice is given. Sick leave is earned at the rate of 7 to 10 days per year depending on length of employment. An employee may not carry forward more than sixty (60) sick days to the next year without the supervisor's approval. Employees are not paid for earned, but unused, sick days upon termination of employment. The Authority calculates the gross compensated absences liability based on recorded balances of unused vacation leave, compensatory holiday, and overtime leave for those specific SCSLC employees who administer Authority operations. The entire unpaid liability for which the employer expects to compensate employees through paid time off or cash payments, inventoried at fiscal year-end current salary costs and the cost of the salary-related benefit payments, is recorded. The net change in the liability is recorded in the current year in the personnel expenses.

1.6 Nonexchange Transactions:

The Authority adheres to GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions* which standardizes the accounting and financial reporting for nonexchange transactions involving financial or capital resources. For the Authority, there generally are two types of nonexchange transactions, *Government-mandated nonexchange transactions* which occur when a government at one level provides resources to a government at another level and requires the recipient to use the resources for a specific purpose and *voluntary nonexchange transactions* which result from legislative or contractual agreements, other than exchanges, entered into willingly by the parties to the agreement. The Authority recognizes nonexchange transactions when they are both measurable and probable of collection. For *Government-mandated nonexchange transactions* and *voluntary nonexchange transactions*, the Authority recognizes assets when all applicable eligibility requirements are met or resources are received, whichever is first, and revenue when all applicable eligibility requirements are met.

1.7 Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

1. Summary of Significant Accounting Policies (Continued):

1.8 Cash and Cash Equivalents:

The amounts shown in the financial statements as "cash and cash equivalents" represent cash on deposit in banks, cash on hand with the State Treasurer and cash invested in various instruments by the State Treasurer as part of the State's internal cash management pool and cash invested in various instruments by the Bank of New York.

Because the State's internal cash management pool operates as a demand deposit account, amounts invested in the pool are classified as cash and cash equivalents. The State Treasurer administers the cash management pool. The pool includes some long-term investments such as obligations of the United States and certain agencies of the United States, obligations of domestic corporations, certificates of deposit and collateralized repurchase agreements. Most State agencies participate in the cash management pool; however, some agency accounts are not included in the pool because of restrictions on the use of the funds. For those accounts, cash equivalents include investments in short-term, highly liquid securities including those that are classified as restricted having a maturity at the time of purchase of three months or less.

The State's internal cash management pool consists of a general deposit account and several special deposit accounts. The State records each fund's equity interest in the general deposit account; however, all earnings on that account are credited to the General Fund of the State. The Authority records and reports its deposits in the general deposit account at cost. The Authority reports its deposits in the special deposit accounts at fair value. Investments held by the pool are recorded at fair value. Interest earned by the agency's special deposit accounts is posted to the agency's account at the end of each month and is retained by the agency. Interest earnings are allocated based on the percentage of an agency's accumulated daily interest receivable to the total undistributed interest received by the pool. Reported interest income includes interest earnings, realized gains/losses, and unrealized gains/losses arising from changes in fair value of investments in the pool. Realized gains and losses are allocated monthly and are included in the accumulated income receivable. Unrealized gains and losses are allocated at year-end based on the Authority's percentage ownership in the pool.

Although the State's internal cash management pool includes some long-term investments, it operates as a demand deposit account; therefore, for credit risk information pertaining to the State's internal cash management pool, see the deposits disclosures in Note 2.

For the Authority's funds not held by the State Treasurer, cash equivalents include investments in short-term, highly liquid securities having a maturity at the time of purchase of three months or less.

1.9 Amortization of Deferred Cost of Issuance of Bonds and Bond Premiums and Discounts:

Cost of issuance of bonds is being amortized over the lives of the bond issues on a straight-line basis and are included in operating expenses. Bond premiums and discounts are amortized over the terms of the bonds using the straight-line method and are recorded as an addition or deduction to interest expense.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

1. Summary of Significant Accounting Policies (Continued):

1.10 Deferred Amount of Debt Refunding:

The deferred amount of debt refunding is the difference between the reacquisition price and the net carrying amount of the old debt. Reacquisition price is the amount required to repay previously issued debt in a refunding transaction and it includes principal of the old debt plus any call premium. The net carrying amount is the amount due at maturity, adjusted for any unamortized premium or discount and issuance costs related to the old debt. The amount is being amortized as a component of interest expense on the straight line basis over the shorter of the remaining life of the old debt or the life of the new debt. It is being charged to operations using the effective - interest method. This treatment applies to debt refunding after July 1, 1994.

1.11 Risk Management:

The Authority is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority pays insurance premiums to certain other State agencies to cover risks that may occur in normal operations and employee health insurance. Several State funds accumulate assets and the State itself assumes all risks for claims of State employees for unemployment compensation benefits. In addition, the Authority pays premiums to the State's Insurance Reserve Fund which accumulates assets to cover general tort claims.

Premiums for worker's compensation, property insurance including fixed assets, group life and fidelity bonds are paid to private insurance carriers and the Authority's coverage is subject to the limits of these policies. The expense for these items is charged to the enterprise fund. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

1.12 Deferred Compensation Agreement:

The Authority offers a voluntary deferred compensation plan through the South Carolina Student Loan Corporation structured and operated in accordance with provisions of Internal Revenue Code Section 403(b). The plan is administered by the Teachers Insurance and Annuity Association and the Authority makes no contributions on behalf of the participants. The Authority's liability is limited to remitting amounts deferred and withheld from the employees' wages to the plan administrator.

1.13 Property and Equipment:

Furniture, equipment and automobiles costing over \$ 5,000 are capitalized at cost when purchased. Depreciation has been provided using the straight-line method over useful lives of three to ten years for furniture and equipment and three years for automobiles and computers.

1. Summary of Significant Accounting Policies (Continued):

1.14 Operating and Non-Operating Revenues/Expenses:

Balances classified as operating revenues and expenses are those which comprise the Authority's principle ongoing operations. Since the Authority's operations are similar to those of any other finance company, all revenues and expenses are considered operating except the recall of Federal Reserve Funds and arbitrage expense.

1.15 Applying Restricted or Unrestricted Resources:

The Authority's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

2. Deposits and Investments:

All deposits and investments of the Authority are under the control of the State Treasurer who, by law, has sole authority for investing State funds. Certain of the Authority's deposits and investments are deposited with the Bank of New York or Wachovia Bank, N.A. as authorized by the State Treasurer. Deposits and investments of \$ 380,993,434 and \$ 324,062,036 at June 30, 2003 and 2002, respectively, are held by the Bank of New York as trustee or custodian for the Authority.

2.1 Deposits:

State law requires full collateralization of all State Treasurer balances. The State Treasurer must correct any deficiencies in collateral within seven (7) days. At June 30, 2003 and 2002, all State Treasurer bank balances were fully insured or collateralized with securities held by the State or by its agents in the State's name.

With respect to investments in the State's internal cash management pool, all of the State Treasurer's investments are insured or are investments for which the securities are held by the State or its agents in the State's name. Information pertaining to the reported amounts, fair values, and credit risk of the State Treasurer's investments is disclosed in the Comprehensive Annual Financial Report of the State of South Carolina.

2.1 Deposits (Continued):

At June 30, 2003 and 2002, Wachovia Bank, N.A. carried a bank balance at \$ 57,907 and \$ 36,587, respectively, of unspent federal grants for the Authority. These accounts are covered by FDIC insurance up to \$ 100,000.

All other deposits are in the State Treasurer Internal Cash Management Account. The value of the Authority's investment in the State's Internal Cash Management Account is determined based on the fair value of the Pool's underlying portfolio.

The reported amount and fair value of deposits held for the various accounts of the Authority were as follows at June 30, 2003 and 2002:

	<u>2003</u>	<u>2002</u>

2.2 Investments:

Investments are valued and reported at fair value based on quoted market prices when available or otherwise at the amount at which the instrument could be exchanged in a current transaction. Investment income on investments is recorded when earned. Purchases and sales are accounted for on the trade date. Unrealized gains and losses on investments have been recorded. Realized gains and losses on securities transactions are recorded on the accrual basis.

No investments are valued at amortized cost. The reported amount and fair value of investments held for the various accounts of the Authority were as follows at June 30, 2003 and 2002:

Investments are restricted by bond indentures to direct obligations of (or obligations guaranteed by) the United States of America, interest bearing time deposits, certificates of deposit or repurchase agreements fully secured by direct obligations of the United States of America, and obligations of certain Federal Agencies and instrumentalities.

The investments at Bank of New York are categorized to give an indication of the level of the custodial credit risk assumed by the Authority at June 30, 2003 and 2002. Custodial credit risk is the risk that the Authority will not be able to recover the value of investment or collateral securities that are in the possession of an outside party if the counter party to the investment transaction fails. Category 1 includes investments that are insured or registered or for which the securities are held by the Authority or its agent in the Authority's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in the Authority's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent but not in the Authority's name. All investments at Bank of New York are Category 1 type investments.

Due to higher cash flows at certain times, the Authority's investments in repurchase agreements, U. S. Agency Bonds and Notes fluctuated. The maximum amounts held in U. S. Agency Bonds during the years ending June 30, 2003 and 2002 were \$ 378,890,973 and \$ 314,338,402, respectively. The maximum amounts of U. S. Treasury notes held during the years ending June 30, 2003 and 2002 was \$ 2,497,412. The maximum amounts held in bank repurchase agreements were \$ 1,034,368 at June 30, 2003 and \$ 0 at June 30, 2002. The investment types listed above included all investment types in which monies were held throughout the fiscal years ended June 30, 2003 and 2002.

3. Student Loans, Federal Family Education Loans (FFEL), and Federal Reinsurance of FFEL Loans:

In 2003 and 2002, these loans bear interest at a fixed rate of 3.5% to 12% or an annual variable rate of 3.46% to 5.38%, which is reset each July 1 and which is equal to the bond equivalent rate of the 91-day or 52-week Treasury Bill, determined at the final auction held prior to the immediately preceding June 1, plus 1.7 to 3.25 percent with a cap on the rate of 8.25 to 12.00 percent. These loans are repayable over a period of five (5) to thirty (30) years with a minimum payment of \$ 360 or \$ 600 per year. Repayment of principal may be scheduled to begin within sixty (60) days or six (6) to ten (10) months after the student graduates or ceases to be enrolled on at least a half-time basis in an eligible institution.

3. Student Loans, Federal Family Education Loans (FFEL), and Federal Reinsurance of FFEL Loans (Continued):

Loans disbursed for the 1978-79 Academic year and subsequent years appear on SCSLC's financial statements. These loans are guaranteed by the Authority and reinsured by the U.S. Department of Education. (See Note 11). Up until March 1, 1999, the Authority charged loan recipients an amount equal to one-half to 1% of the principal amount as an insurance premium to remedy defaults on guaranteed student loans. The Authority can start charging an insurance premium at any time, but current funds are deemed sufficient to pay defaults. Since the Authority entered into a Supplemental Guaranty Agreement with the U.S. Department of Education in 1978, under which the Federal government reinsures the Authority for amounts paid in connection with defaulted loans, the Authority has received cumulative payments to date of \$ 128,256,531 and \$ 89,145,636 as of June 30, 2003 and 2002, respectively, of federal reinsurance. The percentage of the defaulted claims to be reimbursed by the federal government is dependent upon the Authority's default rate experience, as follows:

<u>Claims Rate</u>	<u>Federal Payment for Loans made prior to October 1, 1993</u>	<u>Federal Payment for Loans made on or after October 1, 1993</u>	<u>Federal Payment for Loans made on or after October 1, 1998</u>
0% up to 5%	100% of claims	98% of claims	95% of claims
5% up to 9%	100% of all claims up to 5%; and 90% of claims 5% and over	98% of all claims up to 5%; and 88% of claims 5% and over	95% of claims up to 5%; and 85% of claims 5% and over
9% and over	100% of claims up to 5%; 90% of claims 5% and over up to 9%; and 80% of claims 9% and over	98% of claims up to 5%; 88% of claims 5% and over up to 9%; and 78% of claims 9% and over	95% of claims up to 5%; 85% of claims 5% and over up to 9%; and 75% of claims 9% and over

The calculation of the default rate is based upon the claims paid in a given year as of the Federal government's fiscal year ending September 30 to the total loans in collection on the previous October 1. Based upon data maintained by the Authority, the default rate in the period ended September 30, 2002 and 2001 was approximately .96% and .98%, respectively. The Authority expects the default rate to remain about 1%.

4. Note Receivable Finance Loans:

The September 18, 1979 bond issue requires that all funds advanced to SCSLC by the Authority for the purpose of making student loans be evidenced by a note between the two parties. This note was set up on September 18, 1979 in the amount of the outstanding guaranteed student loans as of that date (\$ 3,970,167). The Authority added the 1993 bond resolution effective in 1993 and all loans issued under the 1993 resolution are subject to the same requirements as loans issued under the 1979 resolution. The Authority added the 2002 resolution in 2002. The note is increased by advances for the purpose of making loans and decreased by student loan principal payments which are returned to the Authority. The finance loans as of June 30, 2003 and 2002 are as follows:

<u>Authority Bond Resolution</u>	<u>2002</u>			<u>2003</u>

5. Amounts Due from/to SCSLC:

The \$ 6,282,860 and \$ 2,543,167 at June 30, 2003 and 2002, respectively, amount due from SCSLC represents funds due for income earned, but not yet received, from the U.S. Department of Education and borrowers thus not remitted to the Authority and funds collected on behalf of the Authority. The Authority also owes the SCSLC for funds collected on their behalf of \$ 83,175 and \$ 18,914,918 at June 30, 2003 and 2002, respectively. Funds collected on behalf of the SCSLC are required to be paid to the SCSLC by the tenth of each month.

7. Loan Guarantees:

As an incentive for the states to set up state guaranty agencies, the U.S. Department of Education has made certain funds available to the states to assist in establishing a federal student loan reserve account which replaced the loan guarantee account by the 1998 Reauthorization of the Higher Education Act (Act) on July 1, 1998. Maintenance of the federal student loan reserve account will depend upon possible further Federal and State advances, investment income, insurance premium on student loans if collected, and reinsurance payments from the U.S. Department of Education. Prior to July 1, 1998, the account accumulated retention of default collections, administrative cost allowance and supplemental preclaims assistance. The Act stopped this (See Note 14). The U.S. Department of Education reserved the right to request repayment of advances under the Advance Agreement within such period as it deemed appropriate in light of the maturity and solvency of the Authority's federal student loan reserve account. As of June 30, 2003 and 2002, the Authority has reimbursed all such advances to the U.S. Department of Education that they have requested.

The 1993 Amendments to the Higher Education Act, Section 422 of the Higher Education Act of 1965, as amended, provides that the federal student loan reserve account of all guaranty agencies under the Act shall be considered the property of the United States to be used in connection with the Federal Family Education Loan Programs and Consolidation Loan Programs under Parts B and C of Title IV of the Act. The Act further provides that the Secretary may direct a guaranty agency to return to the Secretary a portion of its federal student loan reserve account which the Secretary determines is unnecessary to pay the program expenses and contingent liabilities of the guaranty agency. (See Note 14).

7. Loan Guarantees (Continued):

Effective July 1, 1998, the Act allowed a new account called the Agency Operating Account to be established. As described in Note 1.2, this account accumulates funds to operate the guaranty agency.

8. Bonds and Other Payable and Restricted Assets:

The Authority issues Guaranteed Student Loan Revenue Bonds as needed to finance student loans and re-lends bond proceeds to the South Carolina Student Loan Corporation (See Note 4). The finance loans to the South Carolina Student Loan Corporation are secured by loans funded by bond proceeds, related revenue from such loans, earnings on investments in accounts with a trustee and by a debt service reserve funded from bond proceeds. The bond resolutions permit the Authority to accumulate borrowers' payments during the year to pay principal and interest on bonds as due. The bonds do not constitute a debt, liability or obligation of the State of South Carolina or a pledge of the faith and credit of the State of South Carolina. As June 30, 2003, the current debt service account must contain assets equal to the accrued interest payable plus ten months of the outstanding bond principal due the following September 1 as required in the bond indentures. As of June 30, 2003 and 2002, the Authority was required to have assets deposited in the current debt service account of \$ 14,569,994 and \$ 6,387,111, respectively. The Authority has more on deposit in investments recorded in the Debt Reserve Account than the current debt service requirement in 2003 and 2002. Restricted assets in the debt reserve account are \$ 28,332,719 in 2003 and \$ 19,380,649 in 2002, and will be used to pay future debt service.

The Student Loan Revenue bonds as of June 30, 2003 and 2002 follow:

The 1994, 1995, 1998, 1999, 2000, 2001 and 2002 bond issues include auction rate bonds totaling \$ 424,850,000. The interest rate on these bonds varies every thirty-five days depending on auction rate bond markets. The effective interest rates for 2003 and 2002 fiscal years have been approximately 1.3% and 2.5%, respectively. The maximum interest rate is 12%. Future interest payment projections are based upon the weighted average rate of 2.96% at June 30, 2003.

Optional redemption options are available for certain of the various outstanding bonds. The Authority's auction rate bonds can be optionally redeemed in full on any auction date without any call premium due. Certain of the Authority's fixed rate bonds can be optionally redeemed from September 1, 2003 to August 31, 2006 depending on the series with a call premium of 1% to 2% of the principal redeemed. Each of the Authority's remaining fixed rate bonds may be redeemed on and after September 1, 2006 with no call premiums.

NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

8. Bonds Other Payable and Restricted Assets (Continued):

On June 12, 2002, the Authority had outstanding bonds of \$ 429,985,000 and then issued \$ 117,500,000 in Guaranteed Student Loan Revenue and Refunding Bonds with a variable auction interest rate which is capped at 12.0 percent to advance refund (as defined by accounting principles but not by federal tax law) \$ 38,465,000 of outstanding 1992, 1993 and 1994 Bonds with an average interest rate of 5.5 percent and to provide financing for student loans. The gross proceeds of \$ 117,500,000 after payment for issuance costs (\$ 690,000), certain deposits to funds (\$ 1,675,000) and purchase of new student loans (\$ 76,670,000) were used to purchase U.S. Government securities and they were deposited in an irrevocable trust with an escrow agent to provide all future debt service payments on the old bonds. As a result, these bonds are considered to be defeased and the liability for these bonds has been removed from bonds payable. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$ 357,363. This difference is comprised of the amount of unamortized issue costs of \$ 357,363 and is reported in the accompanying financial statements as a deferred amount on debt refunding and a deduction from bonds payable and is being charged to interest expense through the year 2005 amortized using the straight-line method over the remaining life of the debt. The Authority completed the refunding to have bonds under the 2002 bond resolution which has lower reserve requirements and allows the financing of alternative or non-federal loans. The refunding increases its total debt payments by \$ 2,347,111 over the next ten years and obtains an economic gain (difference between the present values of the old and new debt service payments) of \$ 1,637,674. As of June 30, 2002, \$ 38,465,000 of bonds outstanding is considered defeased. The defeased bonds were paid in full on September 1, 2002.

The deferred amount of debt refunding at June 30, 2003 and 2002 is \$ 766,245 and \$ 1,023,142, respectively. The amount of the unamortized bond discounts at June 30, 2003 and 2002 is \$ 2,072,327 and \$ 2,488,666, respectively.

9. Paul Douglas Teacher Scholarship Program:

The Authority administers the Paul Douglas Teacher Scholarship Program (formerly the Congressional Teacher Scholarship Program). This is a federally funded scholarship program designed to attract bright high school students and encourage them to enter the field of teaching. As of June 30, 1995, the federal government has suspended the loan program and the Authority will reimburse all funds collected for the program.

During the fiscal years ended June 30, 2003 and 2002, collections were \$ 59,149 and \$ 36,588, respectively, from repayments by participants. The Authority repaid these amounts to the Federal Government during the years ended June 30, 2003 and 2002 due to suspension of the program. Any repayments not repaid to the Federal Government are recorded as a liability.

10. Related Party Transactions:

The Authority has significant transactions with the State of South Carolina and SCSLC. Services received at no cost from State Agencies include maintenance of certain accounting records from the Comptroller General, investment and banking functions from the State Treasurer, legal services from the Attorney General, and grants services from the State Budget and Control Board.

The Authority paid the University of South Carolina \$ 25,000 and \$ 20,000 for the years ended June 30, 2003 and 2002, respectively, for data processing services and the expense is recorded as contractual expenses.

11. Employee Benefit Plans:

11.1 The Authority provides retirement benefits through the South Carolina Student Loan Corporation Money Purchase Pension Plan for all employees who have completed one year of service and attained age 21. SCSLC has adopted the County Bank of Greenwood Money Purchase Pension Plan, a single employer plan. The County Bank of Greenwood is the Trustee of the Plan. The authority, under which benefits provisions are established or amended, is provided in the Plan document as administered by the Plan Trustee. The Plan issues a stand-alone report annually and may be obtained by writing to the South Carolina Student Loan Corporation, Post Office Box 21487, Columbia, S.C. 29221 or by calling (803) 772-9480. This is a defined contribution plan in which the employer is required to contribute 5.6% of the participant's total annual compensation plus 5.6% of compensation exceeding the Social Security wage base. Contributions are paid monthly. A participant is 20% vested after three years service and 100% vested after seven years. A participant receives normal retirement at age sixty-five. At termination of employment or reaching normal retirement age, the participant has the right to elect to receive all or any portion of his vested benefit derived from employer contributions. Voluntary contributions are not permitted. Under the plan, the portion of an employee's account that has not vested when an employee terminates, called forfeitures, reduces the employer's contribution in the year following the Plan year in which the forfeiture occurs. The total pension expense is fully funded and is included in personnel expenses under the retirement category. The only change made in the Plan during the year ended June 30, 2003 was to add a provision for early retirement. Pension expense, total salary and covered salary are as follows:

	<u>2003</u>	<u>2002</u>
Total Salary	\$ 1,848,578	\$ 1,225,930
Total Covered Salary	1,656,575	1,176,694
Pension Expense (Actual and Required)	103,544	66,662
Percent Pension Expense to Covered Salary	6.25%	5.67%

11.2 The Authority participates in a supplemental retirement plan. The Plan is called the South Carolina Student Loan Corporation Defined Benefit Plan, a single employer plan. The authority under which benefit provisions are established or amended is provided in the Plan document as administered by the Plan Trustee. The Plan is a defined benefit pension plan covering substantially all employees with one year of service and over 21 years of age. The Plan provides benefits based on participant earnings. The benefit formula uses one percent (1%) of the average of the five highest years' pay of each eligible employee multiplied by the number of years of service not to exceed 30 years. The Corporation's funding policy is to make the minimum annual contribution that is actuarially computed by the projected unit credit method required by the Plan. The Authority will contribute the amount billed to them by the Corporation. The Corporation issues a publicly available financial report that includes financial statements and required supplementary information for the South Carolina Student Loan Corporation Defined Benefit Plan. That report may be obtained by writing to South Carolina Student Loan Corporation, Post Office Box 21487, Columbia, South Carolina 29221 or by calling (803) 772-9480.

SOUTH CAROLINA STATE EDUCATION ASSISTANCE AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2003 AND 2002

11. Employee Benefit Plans (Continued):

11.2 (Continued):

The total required and paid contributions for the years ended June 30, 2003 and 2002 were \$ 256,389 and \$ 112,006, respectively, representing 15.48% and 9.52% of covered salary of \$ 1,656,575 and \$ 1,176,694, respectively. Total salaries for the years ended June 30, 2003 and 2002 were \$ 1,848,578 and \$ 1,225,930, respectively. Contributions are included in the personnel expense category.

11.3 Certain health care, dental, long-term disability and life insurance benefits are provided to active employees by various private and state insurers. All full-time and part-time employees who worked at least 32 hours per week are eligible to receive these benefits. Employer contributions applicable to those benefits were \$ 327,803 and \$ 153,948 in 2003 and 2002, respectively, and are recorded as expenses under the personnel expense category, and are paid monthly as billed by insurers.

12. Student Loan Guarantees:

The total approved amount and outstanding balance of student loans that the Authority has under guarantee is as follows at June 30:

	<u>2003</u>	<u>2002</u>
Approved Amount for Loans	\$ 3,523,689,297	\$ 2,974,319,836
Outstanding Balance	1,706,762,474	1,563,275,744

13. Arbitrage:

The Internal Revenue Code (IRC) and arbitrage regulations issued by the IRS require rebate to the federal government of excess investment earnings on bond proceeds if the yield on those earnings exceeds the effective yield on the related tax-exempt bonds issued. Regulations also exist for calculating rebate earnings in connection with the accounting for bond proceeds, refunding issues, and proceeds that are commingled with other funds for investment purposes. Rebates are payable every five years from date of bond issue or upon maturity of the bonds, whichever is earlier.

The IRC and U. S. Treasury Regulations permit issuers of qualified student loan tax-exempt obligations to earn no more than 1.5% to 2.0% above the bond yield on the qualified student loans financed with such tax-exempt obligations. For excess earnings on qualified student loans, issuers may elect to pay such excess to the U. S. Treasury or return such excess to the borrowers of qualified student loans financed by the tax-exempt obligations. The Authority has elected to implement a program of borrower benefits in order to return such excess to borrowers and the program resulted in decreasing the liability.

YEARS ENDED JUNE 30, 2003 AND 2002

13. Arbitrage (Continued):

The South Carolina State Treasurer had computations made to determine the liability at June 30, 2003 and 2002. Based on those results, the Authority incurred expense (income) of \$ (9,612,697) for 2003 and \$ 956,172 for 2002. This expense is determined using the "Future Value" method of determining cumulative arbitrage liability, as set forth in the U.S. Treasury Regulations and is based on cash flows created by investment, sale, maturity of and earnings on gross bond proceeds. As of June 30, 2003 and 2002, the Authority reports \$ 18,010,126 and \$ 29,479,766, respectively, arbitrage liability.

14. Recall of FFELP (Federal Student Loan) Reserve Funds:

The net restricted for federal student loan reserves is the accumulated portion of net assets derived from the Federal Family Education Loan Program (FFELP) guarantee operations of the Authority and may only be used in support of FFELP (See Note 3). On August 5, 1997, the Higher Education Act was amended by the Balanced Budget Act of 1997. Under this amendment, the Secretary of Education (the Secretary) was required to recall \$ 1 billion on September 1, 2002 of FFELP reserve funds. The amount owed by each guarantor was based on the agency's reserves and reserve ratio as of September 30, 1996. For purposes of calculation, the reserves include any Federal Student Loan Reserve Account funds in cash or liquid assets held by the agency. The reserve ratio is defined as the amount of the agency's Federal Student Loan Reserve Account as of September 30, 1996 divided by the original principal amount of all outstanding insured loans on that date. Each agency must transfer its required share to a separate account in five equal annual installments for the federal fiscal years 1998 through 2002. The Authority's estimated amount of prorated share of the \$ 1 billion is approximately \$ 6,830,214 as determined by the U.S. Department of Education. During 2001 – 2002 fiscal year, the Authority's estimated liability was increased by \$ 1,739,823 as determined by the U.S. Department of Education. The \$ 1,739,823 increase resulted in a revised liability of \$ 8,570,037 due to the U.S. Department of Education.

The Authority deposited \$ 1,366,043 each fiscal year beginning December 1997 into a separate account for a total of \$ 6,830,214 at June 30, 2002 and could not use the funds for any purpose without the express written permission of the Secretary. The interest earnings on the account may be used for performing certain default reduction activities as outlined in the Balanced Budget Act of 1997. The funds are reflected in the cash and cash equivalents of the Federal Student Loan Reserve Account. As of June 30, 2003, the reserve funds totalling \$ 7,421,754 were transferred to the U.S. Department of Education leaving a balance due of \$ 1,148,283.

16. Reclassifications:

Certain reclassifications were made on 2002 amounts by statement of net assets and/or operating statement accounts for comparability to 2003 with no effect on net income.

17. Subsequent Event:

On August 20, 2003, the Authority issued \$ 100,150,000 in Education Loan Revenue and Refunding Bonds maturing March 1, 2023. The Bonds are issued as Senior Lien and Subordinate Bonds pursuant to a June 11, 2002 General Resolution and a Series Resolution effective as of August 8, 2003. The bonds will be used to finance student loans (See Note 8).

Notes - CFDA #84.032:

1. The total approved amount at June 30, 2003, of all student loans under guarantee by the South Carolina State Education Assistance Authority was \$ 3,523,689,297. The total outstanding balance of these loans was \$ 1,706,762,474. Special Allowances and Subsidized Interest are earned based on outstanding balance. The Account maintenance fee is based on average principal outstanding for the fiscal year for loans serviced. The loan processing and issuance fee is based on loans originated during the fiscal year. The default aversion fee is based on the balance of principal and interest on a loan that was prevented from defaulting.
2. The South Carolina State Education Assistance Authority received \$ 19,122,817 during the year ended June 30, 2003, under Federal Reinsurance Agreements pursuant to Sections 428A and 428(c) of the Higher Education Act of 1965, as amended.
3. The total value at June 30, 2003, since inception, of all defaulted student loans which the South Carolina State Education Assistance Authority has purchased under Federal reinsurance agreements was \$ 129,196,905. Retention of Default Collections is generated when the Authority retains a portion of the amount it collects on these loans on behalf of the Federal Government.

Notes - CFDA #84.176:

4. Program participants repaid \$ 59,149 to the Authority. The Authority owes the Federal Government \$ 59,149 at June 30, 2003.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL  
CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING  
STANDARDS*

To the Members of the Authority  
South Carolina State Education Assistance Authority  
Columbia, South Carolina

We have audited the financial statements of the South Carolina State Education Assistance Authority as of and for the year ended June 30, 2003, and have issued our report thereon dated August 28, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the South Carolina State Education Assistance Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the South Carolina State Education Assistance Authority's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the management and the U.S. Department of Education and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER  
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Members of the Authority  
South Carolina State Education Assistance Authority  
Columbia, South Carolina

Compliance

We have audited the compliance of the South Carolina State Education Assistance Authority with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2003. The South Carolina State Education Assistance Authority's major federal program is identified in the summary of auditors result section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the South Carolina State Education Assistance Authority's management. Our responsibility is to express an opinion on the South Carolina State Education Assistance Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the South Carolina State Education Assistance Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the South Carolina State Education Assistance Authority's compliance with those requirements.

In our opinion, the South Carolina State Education Assistance Authority complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the South Carolina State Education Assistance Authority is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the South Carolina State Education Assistance Authority's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

To the Members of the Authority  
South Carolina State Education Assistance Authority  
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the management and the U.S. Department of Education and is not intended to be and should not be used by anyone other than these specified parties.
