

Dear Governor Haley:

I am shocked and dismayed that South Carolina is *still* funding Planned Parenthood: America's number one killer of preborn children!

The undercover videos proving that Planned Parenthood has been selling body parts and tissues harvested from aborted babies should have been more than enough to stop this funding, yet it continues.

I am calling up you, as Governor, to use the "bully pulpit" of your position to rally the state legislature to pass a bill cutting off *all* funds to this group. And when the bill is passed, I expect you to sign it.

Please do the right thing for the innocent children whose lives will be ended by Planned Parenthood, using money paid by South Carolina's taxpayers like me!

Sincerely,

Maurice Moore
