Good morning,

My wife Shelly and I are looking to retire soon. One of the states we are looking at is South Carolina. Florida just does not do it for us as well as the state my wife has lived in all but 1 year of her life, Connecticut. What can you tell us about the state and its offerings for retirees from taxes to ????? We are looking to be within a 2 mile range from the shore and have a friend in Charleston.

We look forward to your response,
