Dear Ms. Kaindl,

It's a great day in South Carolina as SWISS KRONO breaks ground on its new plant in Barnwell. Since the initial investment fifteen years ago, the company has experienced remarkable success that has been a driving force behind its considerable expansion and significant impact on the area. We are proud to have SWISS KRONO as a valued member of Team South Carolina and to celebrate this outstanding milestone in the company's continuing growth and development.

On behalf of the people of South Carolina, thank you for giving our state so many reasons to smile! We wish you the best going forward. God bless.

My very best,
