Attn: Phillip Livenatti - Senator
Nikki Haley - Governor

Haley told the family that LT Moultrie
LT Hips reported to the investigator Mrs. Brock-
anberry were all sent this information by
Haley. They blew it off like nothing had happen.
Haley gave his mail to the officer at KCI
and he gave Haley mail to an inmate to
put in mailbox, but they took his legal mail
out of mailbox. Haley says he also have witness
to testify that his mail was given to another
inmate. The LT and staff refused to mail
Haley's legal mail out or give it back to him.

Nurse Amy Smith gave Haley 13 packages
of 30 supplies of his own medication, came back 3
days later charged him with a 903, they found
him not guilty and the Healthcare planted meds
on Haley. Amy Smith had her sister-in-law
Carolyn Smith to charge Haley with contraband
of a ~~off~~ Alcohol swabs that the LT Hip gave
5 other inmates that was in front of Haley and
did not charge them. Haley told us (family) that
all the plots started with Amy Smith and

We believe everything that has happen to Haley
Amy Smith went back and told Haley she was sorry.
