## South Carolina State Parks

at 13:36:21 on 11/18/2021 UTC

On November 16, South Carolina State Parks presented the Lutz Foundation with the prestigious President's Award from America's State Parks for their transformational investments in Chester State Park. The Lutz Foundation has provided more than \$330,000 over the years to improve the park to better serve the Chester community. Projects they have helped fund at the park include a new playground, a disc golf course, upgraded campgrounds, renovations to Lakeview Hall, a waterfront living area, and most recently a camper cabin. These improvements, along with many others made possible through the Foundation's support, have helped raise the park's profile in the community and statewide.

The Lutz Foundation was created to fund many community needs – education, health and welfare – as well as community programs. Their support has forever changed Chester State Park, and we are grateful for their continued partnership. Congratulations to the Lutz Foundation for being selected for this prestigious and well-deserved award!
