Subject: SCDOT Advisory

The South Carolina Department of Transportation (SCDOT) is closing Sea Mountain Highway at the Little River swing bridge near North Myrtle Beach due to damage to bridge's 6-ton gear box.

A detour is being set up by SCDOT crews on site.

The swing bridge will be left in the open position for boat traffic along the Intracoastal Waterway. A completion date for repairs is not known at this time.

Built in the 1930s, the Little River swing bridge underwent renovations in 2005. The bridge typically opens 900 times a month this time of year.
