Subject: Cups for drinks

Hi Amy

Hope you are home enjoying a glass of wine.

I am sorry to send another email and you are probably sick of me but I just wanted to let you know I got 2400 plastic cups to use for drink service on the course. (If you and the course approve) they are simple mid sized plastic white cups with the SC Firefly logo on them.

We could even use them in the morning for bloody Mary's to save from purchasing.

Also I know I expressed an interest in meeting next which I still do but I am completely tied up Wednesday and Thursday during the day. It's end of 1st quarter war room time :/

Have a good evening!
