

10/9/15

Dear Governor Nikki Haley,

What do abortion and homosexual marriage have in common? Depopulation! In homosexual marriage people of the same gender can't reproduce unlike heterosexual marriage. Abortion kills babies reducing the number of people required to keep Social Security benefits going. A nation needs families to have 2.5 or more children to keep a nation's economy strong. If the families stop having children a nation's economy collapses.

Please not only ban gay marriage in South Carolina but also file law suits against the U.S. Supreme Court for illegally forcing gay marriage into all 50 States including South Carolina even though in 1972 they admitted they have no power to do it. Could you please close down the Transgender bathrooms in all of the South Carolina public schools ban abortion completely and cut off Planned Parenthood's South Carolina State funding.
