

Regards, Gov. Haley.

First, I am a hardcore Republican so my opinions are so skewed.

When you were elected I became more and more impressed with you, politically and personally. This opinion still grows. However, I'd like to share my opinion on a couple of issues.

The Democrats, and other liberals keep preaching that the conservatives want's to "lock out" Moslems from our country. You expressed the same opinion after your post "State of the Union" comments, specifically regarding our Republican presidential candidates. I beg to differ and encourage you to review your sources. To my knowledge, no Republicans has called for banning Moslems, nor any other persons based only on religion. This is not to say that Americans have not persecuted many groups for reasons, usually personal gains but, unless I am wrong, our Presidential candidates have only called for strict application of current immigrant law statutes on all persons who are trying to enter our country. This is not an opinion, it is their, and your, sworn duty.

Laws can be changed, but until they are, it is the duty of those who swore to defend the law to enforce them, in favor, or to the detriment of those who desire to act against our laws, whatever sentiment is popular at any given time, for any reason. Many have fought and died to defend them.

Sincerely and Respectfully,

John A. Wallace

Vietnam Era Navy Vet.

P.S. The Flag that was struck from the S.C. Capital building was not the confederate National Flag. It was a semaphore used to communicate in battle. You can see the national flag under "Confederacy" in the Encyclopedia, or the current Georgia flag minus the Ga-state seal. You may want to display the correct flag in the S.C. historic archives and remove the battle semaphore flag. You know, in the interest of properly enforcing S.C. law.
