Subject: Needing your help with DSS

Dear Mrs. Haley,

My name is Sidney Grice and I am the grandmother of Brianna and Kayden, they were both placed with me in September of 2014 because they were in deplorable living conditions, neglect, and possible drug abuse. Both of them tested positive. They placed them with me under a safety plan and said it would be 45 - 90 days. Since then they have changed case workers 3 times. They will not tell me anything about what they have in mind as far as the kids are concerned. They called and wanted to do another home check today because they have a new caseworker, so she came to the house to see the kids sat on the couch for 5 minutes ask me if they both had cribs and then left. She said she would go and see there mother's house next month. I understand that they are busy but I deserve to know what is going on when it comes to the kids. They would not even tell me that the kids tested positive. That's something that I needed to know so I could let the pediatrician know. Please help if you can my number is 803 - 518 - 6292.

Thank You,

Sidney Grice
