---

Thanks. I'll get this in the right federal office tomorrow.

Subject: FSDO Change

Dear Danny

AirStat Inc has been in operation for ten years operating out of Thomson GA.

AirStat Inc has several opportunities which we would like to take advantage of but we need to advance the level of our certificate in order to do this. We would like to relocate our certificate to the Columbia SC Flight Standards District Office (FSDO) as we feel it will benefit us in a couple ways. First, the maintenance facility we employ is located in Columbia and we feel having the operations side co-located with our Director of Maintenance would streamline our oversight. Secondly, we believe that the workload of the Columbia FSDO would assist us in moving forward.

AirStat, Inc believes that moving our operations to South Carolina would be an obvious financial benefit for the state and would help us to maintain closer contact with the FAA as the FSDO is closer to our current base of operations.

We are asking that every effort to assist us in this move and to act as a liaison with the appropriate state and Federal entities required be made on our behalf.

We look forward to any assistance you may be able to provide in this matter.

Sincerely,

Perry Barinowski
