Jennifer Johnson Mosquitos are terribly bad! I went there last October and I thought there would be no mosquitos but I was wrong. I had to spray often all day. I suspected I chose wrong campsite because it was too close to swamp between campsite and beach. So I don't mind to visit again there but I would choose campsite that is far away from swamp or still water.

Jennifer Johnson Yes, there are tent sites. Warning....tent sites are close to swamp or still water! Try to find sites that are away from them or you would get mosquito bites. I chose wrong tent site last October and I got many bites!

Peter Bendal Kear It would not be difficult to add a couple sets of poles to any of the state parks primitive campsites. IDK if Huntington Beach has any strictly primitive sites but most other state park campgrounds do. That said as many people who use an RV also like to set

up a hammock for relaxing outside it would be good for all sites to have at least one set.

Penny Baskin At Edisto it depends on if you are at Live Oak which is the off beach campground or the main camp ground AND ON the beach campground it depended on if the wind is from land or sea side. You're doomed if there is no wind. Lol.
