---

Would you mind doing an updated version of this spreadsheet that runs absentee rates against some of the performance figures? Ideally as separate scatterplots. Absentee Rate vs. SAT, Absentee Rate vs. HSAP, etc.? See if anything clicks? Thanks.

Subject: Attendance data

Hey Christian and Josh,

I got the 2011-2012 attendance data from Dept of Education and plotted it against the total membership to see if there was a trend, but I'm not sure there is one. In order to view the data better, I excluded a few data points that seemed high possibly because of a mistake in the data. Let me know what you think.

Rachel
