Subject: Goodbye power outages / No more water waste / Teens build smart cities

[Click here](#) to view this message in a browser window.

No more **power outages**? Or **wasted water**? Don't miss the solutions making that possible. **Teens are building** the cities of the future. And check out the **possible new laws** that could help the homeless.

Now you're caught up,
Jesse Berst

Get a head start on your smart cities efforts. Smart Cities Week Silicon Valley is coming up May 8-10 and you can kick off your week with a special pre-conference workshop designed to help you develop your smart city roadmap. It is included as part of your Smart Cities Week registration. Register today.

How Beecher, Ill., plans to end power outages. No more power outages? See how ConEd and S&C Electric plan to deliver that to one Illinois community — and how their work could lay the groundwork for renewable energy sources.

NASA's enlisting teens for smart city research. Middle school and high school students are collaborating with NASA research and development teams to build a global smart city platform. And they're performing extremely well. Read on to learn more.

Eliminate water waste (how Gwinnett County is doing it). In a day where we can't afford to waste a single drop of water, three Council partners are teaming up to help this Georgia county reduce its already low water waste. See how.

Will legislative efforts help or hurt the homeless? In Oregon, it's the Right to Rest Act. Politicians in Hawaii are debating doctor-prescribed housing. And in the UK, many are worried about the impact of new policies on homeless youth. Click for a roundup of recent legislative schemes addressing homelessness.

Partner Spotlight: News for Schneider Electric, ZTE, CH2M, Siemens and Panasonic. Schneider Electric's USMC smart controls project... an ethics award for CH2M... Panasonic's residential roof solar panel and more. Click the links for details.
