I can/will. Does that mean we can call the company or wait until you get bullets?

Have bulletpoints on Dayco like you did for Crescent?

Below is the info re: Crescent. They were the only other "new" announcement in the county since 2012.

Do you need me to coordinate with someone else in your office since you're in crisis mode?

I can contact the county for 2nd and 3rd options if necessary.

Subject: Crescent Dairy & Beverage

Here's the detail on Crescent.

- High temperature pasteurization to make long shelf-life dairy products for latin American market.
- Will export products through the Port of Charleston.
- Announced \$34 million in capX and the creation of 60 jobs.
- They acquired the county's 100,000 sf spec building & have thus far installed about \$40 million in building finish and equipment.
- They have hired their 1st dozen employees and have used readySC to train them.
- We anticipate that they will be ready to "go commercial" about the time of the WRC event which may make for a more special occasion.
- I can get them signed up quickly to have them recognized as a WRC participant.
- I'm confident that they would wish to participate and the new plant and equipment would make for a good backdrop.
