Beth,

We need to hammer out a Communication plan for the I Believe plates - one for internal and one for external customers.

We need to get the field offices and the Contact Center ready for calls and questions. We need to put general info on our web site as well.

Jimmy, et al

See my suggestions at the end of the list. I will review with Frank so he can outline the technical solution and to see if he has any other suggestions within this approach. rd
