NO. 1 VOL. 1

GONZALES GARDENS

Sunday, October 6, 1940

WELCOME

The Management wishes to take this opportunity to extend an official welcome to every tenant living at Gonzales Gardens. We hope that you will like your new home. The Management will do everything possible to help you enjoy living at Gonzales Gardens and in return requests your co-operation in making Gonzales Gardens an ideal American community.

Every family living here has been carefully investigated and we know that we have nice and decent families. We want you to be a Good Neighbor for by being a Good Neighbor you will be a good tenant.

There may be at first a few minor difficulties with your apartment equipment but these will be adjusted as soon as possible. Being a Good Neighbor means not disturbing those near you and making friends with one another. Little things count a whole lot in this world, so do not play your radio excessively loud or in any other way disturb your neighbor. Feel free at any time to call upon the Management to help you solve the problems facing you concerning your residence at Gonzales Gardens. We are here to help and advise you.

On the back pages of this issue is printed a directory of tenants for your information.

As soon as equipment has been received for the social room tenants may organize clubs or associations as they desire. Such activity will be entirely voluntary on the part of the tenant. The Management hopes that a large number of tenants will take part in these

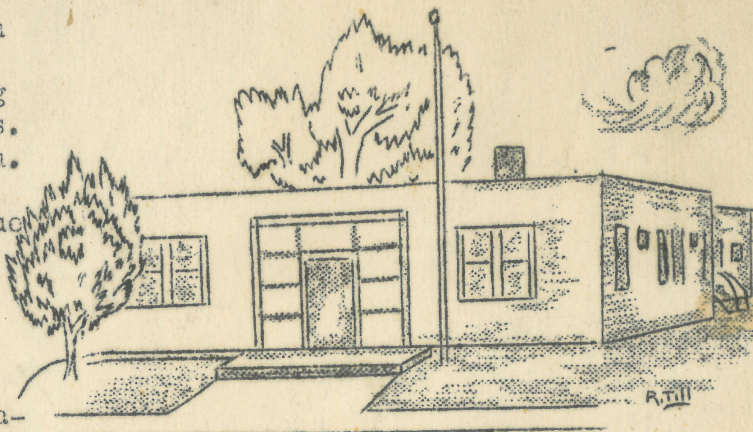

activities as they help us to live a broader and more varied life. The social room will be furnished with a library for use by the tenants. There will also be a completely equipped community kitchen adjacent to the social room for use by the tenants in holding club luncheons, etc.

The Management compliments the editor of the Gonzette for his splendid initiative in conceiving this publication and hopes that the other tenants will aid him in his efforts. A publication such as this will do much to create a community spirit among us.

In conclusion, a good slogan for Gonzales Gardens would be "One for All and All for One". Let's make of Gonzales Gardens a real American community. We can do it with YOUR help.

W. R. Geddings

Supervising Manager.

GONZALES GARDENS TO PROVIDE OUR RECREATION

Rome wasn't built in a day or even a year, and neither is a housing project. There is more to this project than many of you realize. I should think that the place as it is, with all the modern conveniences, privacy, cleanliness and beauty, is enough for the low rent that we pay.

However, in addition to these comforts, we are going to enjoy recreation furnished by the project.

On the northwest end of the project there are five acres of land being made into a large playground. Specifications are being drawn and equipment ordered to complete this playground at the earliest possible date for your recreation. Swings, "see-saws", sandpiles and other playground equipment are ordered. There will be a softball field, a basketball court, and a volley ball court. One never gets too old to play, so this bit of news includes the grown-ups too.

This room is being used now as part of the office for handling applications. It will be furnished with chairs, card tables, games, books, dishes and cooking utensils, and will be available to the tenants very shortly.

The GONZALES GARDENS, as the name suggests, is truly to be a beauty spot. Even now special attention is being given to plans for the planting and cultivation of lawns, shrubbery and flowers. Constant work in this phase will be carried

on until this project will be truly a garden.

What more could anyone think of that would add to our living accommodations, recreation, and better living?

Randolph Till,
-----Editor

The splendid work and co-operation of the office force at Gonzales Gardens have made possible the rapid selection of tenants and the leasing of all available apartments by October 1, 1940.

The selective-force consists of Mae Bridges, superintendent; Mrs. Harry Howard, Jr., stenographer; and the following interviewers: Sara Taylor, Sarah Sweatman, Mrs. F. C. Hithers and Mr. W. F. Coleman.

These workers are to be commended for their tireless efforts and the fine results obtained therefrom.

Many a man who thinks that he thinks,
has a wife who does all the thinking.

Shoes may come and shoes may go but
men kick on forever.

All things come to the other fellow
if you wait long enough.

FLASHES

Of yesterday's disasters make kindling
wood today.

Build of them a fire each room
and burn them all away.

Then you resurrect your life and start
anew to live;

Then some day there'll be nothing wrong
To make this fire with.
