---

Actually, I read back through this quickly and we requested that the 12 feet be pulled out and just read “adjacent to the roadway” and that’s what the subcommittee passed out.

We’ve been asked to support this bill. It basically extends the Move Over law to include language that says “12 feet adjacent to the roadway” in order to better protect workers who are working on the side of the road and not on the roadway itself. Our engineers are supportive of this language, but I wanted to run it through you before allowing them to print our name on a handout.

The agenda has not been posted for Senate Transportation’s meeting tomorrow, but I anticipate it being on that agenda. Please let me know if you’ve got any thoughts. Thanks!

Wendy –

Please forward this email to Clem. I do not have his email address.

We understand that the temporary work zones bill (S594) will be in full committee next week and plan to use the attached one-pager in talking with members before the meeting. We have taken the liberty of listing DOT as a “supporting party.” Please let us know if we need to remove that reference.

Many thanks –  
Bonnie
