---

What is the status of this? This is impacting the titles and tickets. I don't really understand if we can scan or not. Walt told me Friday that the high speed scanners were fine. What is the total picture?

Walt, Phillip and Jimmy,

When can Records Management expect to be back in operation ?

Down time has been going on since last Wednesday. Backlog is having extreme impact.

Fred

Fred,

As of 8:50 am this morning, both high speed scanners are still inoperable. Of the 5 low speed scanners, only 1 is totally operational, 1 can scan but cannot release into Doc's Open, and the other 3 are defunct and cannot be operated at all. We also cannot open Doc's Open to research documents.

FYI
