Subject: ONE Woman: To UNITE the World... with love?

Good evening Ms. Haley,

This is not meant as threat. it is not meant to cause terror or fear. It's a heartfelt, simple plea for a little bit of your time -- our time -- to talk....

I hope that your evening is going well. I really need to speak with you regarding an urgent matter, and unfortunately, which continues to destroy life as we know it. Seriously -- it's unbelievable, unthinkable and it will to happen not only in South Carolina, but throughout the United States of America. And, unfortunately, its impact will continue to resonate across the globe. It hurts every nation, every citizen and every life -- past, present or future...

You're my last hope. You're our lifeline -- the world's lifeline. WE can SAVE South Carolina. WE can SAVE these United States of America. And WE can SAVE the WORLD.

To be crystal clear -- I'm not delusional, insane, a terrorist, an idiotic crackhead or anything negative. My intentions are good. I believe in a future that is free from hate, fear and affliction...

You will and can be anything and everything that you -- that I -- want and need US to be. NOW. Together we'll be stronger. Together we'll stay brave, we'll BE alive and TOGETHER we'll have NO FEAR. Together we'll END FEAR and TERRORism will be stopped dead in its tracks. For the sake of humanity. This is at least my, OUR, starting point. There's much, much more; but, let's START somewhere. With ONE thing that everyONE will BELIEVE IN -- US.

Let's get together and quickly set the world on fire with love. We'll end fear and begin a new era where it won't be tolerated ever again. An era where any and every affliction should and will not be tolerated. The world, UNITED as ONE, will believe in what you and I can and will become for them. They'll become ONE under US. They'll believe everything that they see and that they hear -- from ONE great WORLD LEADER, from ONE great WOMAN -- from you, Nikki R. Haley.

Tag -- you're it. Knock it out of Columbia, S.C. Greenville, S.C., South Carolina, the United States of America, the World, the Universe ... BE everything that humanity needs you to BE. (Please).

Love,

Craig

P.S. - Feel free to include Michael, and your kids, in anything that comes of this message. Also, please feel free to invite Steve Loftis, Mark Keel and anyone that you trust...

I'll trust you if you trust me. :-)

P.S. - I've been told that Mark Keel is very dangerous man. Please, please don't shoot him over SLED's 2015 overdue Accountability Report. Oh, and don't let him shoot me...

At least until after you speak with me in some capacity. Or until after WE all speak together as #ONESC? Please?! ;-D TYVM!

<3 and corgis...
