## 'History Will Be So Cruel to You': Rick Wilson Lights Up Trump Backers in Tweetstorm

by Ken Meyer | 12:18 pm, June 16th, 2016

Conservative writer **Wilson** absolutely despises Donald Trump and he's deeply worried that the mogul's dominance will cause incalculable long-term damage to the party's

reputation. Trump has taken a dive in his approval rating recently and though the Orlando Shooting might shake things up going forward, Wilson went on a Twitter tirade last night about its proof the GOP will have a price to pay after the election is over.

Trump has found himself in controversy so many times over the course of his campaign, and the GOP leadership has constantly found itself offering half-hearted condemnation while allowing him to become their 2016 nominee. By the looks of last night, Wilson isn't having it anymore.

I won't say much more about this since it's better to just read Wilson's tweets, but take note of how "Cheeto Jesus," "unspinnable ratfuck," and "crypto-fascist," are among the nicer things he says.

1/ How the actual fuck does anyone at the RNC have standing to act shocked Trump is not doing the basics of campaigning?

2/ You can't elide over his utter dipshittery. No matter how much you try to act surprised, you own this. You're covered in his stench.

4/ Your off the record sniping and grumbling is no substitute for moral courage. That's so DC.

5/ You won't escape the stain. It's like a big, visible "No Regrets" chest tat that mark your careers forever.
