Subject: Procurement reports

Sean,
I spoke with Delbert today and requested several reports. I asked for a vendor listing sorted in descending order based on the state's total dollar activity with the vendor for the past year. I also asked for a report that lists all the vendors who filed protests and the vendors who eventually were awarded the contracts. He will note which of the protests ended in a hearing conducted by Voight. Finally, he is sending a report listing all of the agencies' procurement authorities. Delbert seems to think that he can have the information by Tuesday or Wednesday. I will then try to set up some phone interviews for Friday. I will keep in touch as I receive the reports.

Thanks,
Marcia
