H. 3750 – Delete from your list. This regulation is dead.

Watch these regulations:

R. 4538 – is pending in House 3M and Senate Medical Affairs. This is the comprehensive revisions to CON regulations that we want. I am working with M. Smith, DHEC and groups that want it. Will become effective May 21 if 3M or SMA doesn't take it up.

R. 4471 – is pending in House 3M and Senate Medical Affairs. This regulation will allow patients to stay overnight in ambulatory surgical centers. Working with ASCs to keep it alive.

**Updating bill follow ups - do you have any updates to add and/or delete?**

**(Swati)**

**Disapproving DHEC Regulation** – H.3750 – Crossed over, Senate Medical Affairs. The bill disapproves of a DHEC regulation that would allow CON applicants to file their applications online, rather than through paper applications. GM Smith has indicated that he does not want any CON regulations to go forward because he is focused on a permanent fix. Swati is working with GM Smith to let this regulation go forward.
